This list which is being published twice yearly has been compiled using information from QTH Africa own monitoring, from various monitors and some items were used by kind permission of the BBC MS.

Some of the above listed programmes, such as "Voice of Namibia" are known to be transmitted via Luanda in the evening GMT on 7245 & 9535 but the pattern could not be established as these frequencies are heavily jammed during the entire evening GMT.

QTH Africa, of which this list is a supplement, is a newssheet published every ten days and dealing with stations news, such as fq. changes, time changes, new stations etc., with club news, publications and similar items. Six special lists are issued every year, twice yearly this Survey of Clandestines and four times per year details of the External Services in English from Africa, with times frequencies, transmitted powers and target aereas. These special issues are sent free of charge to the regular subscribers and are also available to anyone else for 2 IRCs per copy, air mail anywhere in the world. QTH Africa subscription costs US \$ 6.00 per year, air mail EXTRA. Sample copy plus detailed information sheet is available for 2 IRCs air mail from:

QTH Africa
P.O.Box 28250
Pretoria 0132
South Africa.
