Help continue making the photo page a success. Mail your entries to the Corresponding Secretary. B & W photos and color (if clear and not dark) needed.

▲ PAUL PETERSKY

Uses NC-183 and GR-54 receivers with a 60M dipole and SW-7 Ants. He has totals of HIC 115/ VIC 83. The past year has been most active in his 4 years of SWLing.

CRAIG WICKS

is fortunate to be one of the few who have a shack to themselves as this attractive arrangement. His main receiver is a Realistic DX-150. ▼

▲ CARROLL "PAT" PATTERSON

Another of the fortunate ones who has a shack devoted to the hobby. Pat's SX-99 has served him well, and we appreciate his expertise and service as a knowledgeable DXer.

ED RICCHEZZA ▲

Ed has made good use of his SW-4A and Joymatch tuner combination. He also employs a 100 Khz Xtal Calibrator. Oddly, he uses the metal frame of his 12th floor apartment window as an antenna - so far netting him 86 countries in 18 months. He has also added GILFER's new Pre-selector for greatly added gain.
