AN INDEX TO THE STATION RECORDINGS OF RICHARD GINBEY

Posted in the
Media Network Vintage Vault
through *December 2016*

This is an index to the station recordings made by Richard Ginbey of South Africa and included in the various African news segments of the Radio Netherlands Media Network programs that have been posted in the Media Network Vintage Vault through the month and year shown above. To hear a clip, click on the link; then either click on the forward arrow of the embedded player, or click on the MP3 file and use your own player; then find your way to the indicated "Min./Sec. Location." I find it easier to use my own player (Windows Media Player), which shows elapsed time and thus permits quick movement to the desired location. Where two dates separated by a slash appear under "Prgm Date," the first date is the date the program was broadcast (or the date the audio clip was posted on line if there was no on-air broadcast), and the second date indicates the approximate time when the recording was made (e.g. "161206/1980s" is a clip from the 1980s that was posted on line on December 6, 2016). I hope to keep this index up to date; corrections are welcome. **New items are asterisked before the station name.**
