

On Short Waves

By Ray Brennan

Time Shown Is Eastern Standard

IN A RECENT dispatch to Charles A. Morrison, Allan A. Gulliland, Berlin correspondent of the *International DXers Alliance*, discloses some important information on the new Zeesen wavelengths. He states that DJN (the new Zeesen transmitter on 9.54 meg) has taken up a regular service on a beam directed to South Asia, but often heard here. It operates from 3:45 to 7:15 a. m. and 8 to 11:30 a. m.

Using a different aerial DJN beams on Central America from 3:15 to 10:45 p. m. This transmitter is not actually located at Zeesen but at Königswusterhausen—two miles from Zeesen.

A new wavelength with the call DJQ (15.28 megs) will probably be put into regular use January 1, for an early morning program to Eastern Asia. The wavelength of DJE (17.76 meg) is used irregularly for special international program exchanges with South America.

DJD, Zeesen, has altered its wavelength slightly (to 11.77 meg) so as to avoid any interference with GSD Daventry, which employs 11.75 meg.

New Year's Shows

DJC, Zeesen, (16.02 meg) offers "Die Markische Truhe" (A Leisure Evening) with the Bradenburg peasants at 7:00 p. m. on Sunday, December 30. On Monday evening, December 31 (New Year's Eve) DJC will put on a special national broadcast, "A New Year's Eve," starting at 5:35 p. m. and continuing throughout the evening. At 8 p. m. the German short wave stations will send their best wishes for good luck during 1935.

The next international good-will broadcast to be presented in the series arranged by the *International DXers Alliance* is scheduled for Sunday morning, December 30, from 9 to 10 a. m. when "MOSCOW CALLING," will be heard through U. S. S. R. stations RNI, (12 meg) and RKI (13 meg). This special broadcast direct from Moscow has been arranged through the cooperation of the U. S. Embassy.

All day long on Monday, December 31, the short wave dialer will be hearing New Years ushered in in some part of the world. It would be well to remember that at 7:30 a. m. Monday morning it will be midnight in New Zealand. At 9 a. m. it will be midnight in East Australia; 10 a. m. ISI is midnight in Japan; 1:30 p. m. is midnight in India. Five p. m. is midnight in Moscow; 6 p. m. means midnight in Germany; 7 p. m. midnight in Great Britain; 10 p. m. midnight in Buenos Aires; 3 p. m. EST on Tuesday, January 1, mid-

BETTY LOU GERSON

She's from Birmingham, Alabama, this beautiful southern lass, and her accent is as pronounced as her pulse-ritude. Hear her as a dramatic actress on *The Story of Mary Marlin*, which begins on the NBC-WEAF network New Year's day and will be heard daily except Saturday and Sunday at 12 noon EST (11 a. m. CST)

night on the Pacific Coast, and finally 5:30 a. m. EST will be midnight in Hawaii.

Reception Review

For period of December 13-20, as reported by Charles A. Morrison, *International DXers Alliance*.

For once we are able to report a great general improvement in short wave conditions for the period under review.

One of the most thrilling, and dramatic items of the weekly *Byrd Broadcasts* has been the two-way conversations between the men in that lonely Arctic outpost and their loved ones at home. During the closing minutes of Wednesday's broadcast on December 19, several of the "folks here at home" sent their Christmas greetings to their absent ones in *Little America*.

Just what this actually meant to the men, separated by some 10,000 miles from the warmth of their own firesides, is not hard to imagine.

We were successful on this same broadcast in picking up the weak signal of KFZ on channel No. 9 direct for a few minutes, and although the fading was deep and slow, and intelligibility poor, we still got a great kick out of it.

This is the third time we have been successful in receiving KFZ direct at the official Radio Guide *Listening Post* at Bloomington, Illinois.

THE 16-METER BAND has been fair to good with GSE, Daventry (15.14 meg) and PONTOISE (15.24 meg) vying with each other for best performances during the early morning period of from 9 to 8 a. m. PCJ, Eindhoven (15.22 meg) was the best we have yet heard them on Wednesday morning, December 19.

THE 25-METER BAND has shown a great improvement and GSE, Daventry (11.86 meg) has been a fine signal both on their early schedule of 6 to 9 a. m. and their No. 8 transmission from 9:15 to 10:45 a. m. PHH, Huizen (11.73 meg) has been exceptionally good during several mornings. RNE (12 meg) was heard with early tests with WQO, New York, on Fri-

day morning, December 14. DJD was heard on 11.77 meg two different mornings during the week—a mighty good harbinger of better conditions as this transmission is beamed on Asia.

THE 31-METER BAND also shows signs of waking up. DJA, Zeesen (9.56 meg) has been heard on different occasions during the week. GSB, Daventry (9.31 meg) has been best in the early afternoon. PRF5, Rio, (9.30 meg) remains surprisingly constant week in and out. One of the best signals in the evening is COH, Havana, Cuba, (9.46 meg)

THE 49-METER BAND for a change has been good both on the European stations and the South Americans. GSV, Daventry (6.05 meg) has been word perfect during some of their 6 to 8 p. m. transmissions. DJC, (6.02 meg) has ranked from fair to good. Best South Americans remain YV4RC, Caracas (6.37 meg); YV3RC, Caracas (6.15 meg); IIIABB, Barranquilla (6.44 meg); PRADO, (6.62 meg) and a new station, TIN, at San Jose, Costa Rica, Central America, that has been very good this week on 5.80 meg.

Tuning Chitchat

2RO, Rome, Italy, on their 0.78 meg frequency has been excellent all this past week, being best from about 3 to 5 p. m. We suggest you put this station on your daily S. W. menu if you like your variety hours with a Continental flavor.

This week's *Big Thrill* came on Tuesday afternoon, December 18, when a friend—Carl L. Whitehouse, of Normal, Illinois—called on the telephone and said he had a strange station on the 25-meter band speaking in some unknown tongue. By the time we had the signal tuned in the voice had stopped, but a two-tone signal with the last note a long, drawn-out quavering wail, was in progress.

We tuned in the tone signal for maximum strength and very shortly a guttural French voice was heard to say: "Allo-allo, Buenos Aires Gen. Alo-allo-allo, Buenos Aires Gen. Alo-allo-allo Buenos Aires Gen. Radio France. 1-Say-Kah."

After calling a few more times, apparently unsuccessfully, Radio France 1-CK signed off. A search through several lists brought our conclusion that 1-CK is in Morocco, North Africa. This is indicated by the call prefix, although we were unable to locate it on our lists. If anyone else has heard this station, we would like to learn its exact identity.

NEW YEAR'S PROGRAMS

Time Shown Is Eastern Standard

SUNDAY, DECEMBER 30

12:45 p. m. CBS-WABC New Year's Program from London
5:30 p. m. NBC-WJZ Catholic New Year's Program, Father Finn's Paulist Choristers

MONDAY, DECEMBER 31

10:45 a. m. CBS-WABC New Year's Eve Celebration at Manila, P. I.
7:00 p. m. CBS-WABC Big Ben Chimes from London
10:30 p. m. NBC-WEAF-WJZ Let's Dance (until sign off)
10:30 p. m. ABS-WNCA New Year's Eve Dancing until 5 a. m.
10:45 p. m. CBS-WABC Musical New Year's Eve Greeting from Buenos Aires and Little America

TUESDAY, JANUARY 1

11:00 p. m. CBS-WABC New Year's Eve Dancing Party (until 4 a. m.)
10:30 a. m. ABS-WNCA Mother's Day Parade
11:15 a. m. CBS-WABC Happy New Year from Columbia
12:30 p. m. NBC-WEAF Description of Rose Bowl Parade from Pasadena, California
2:30 p. m. CBS-WABC New Year's Party
2:30 p. m. ABS-WNCA Tony Laubach's New Year's Greeting

THURSDAY, JANUARY 3

11:15 a. m. CBS-WABC Academy of Medicine

On Short Waves

By Ray Brennan

Time Shown Is Eastern Standard

THE COLUMBIA Broadcasting System, through its short-wave station W2XE (6.12 meg) at Wayne, New Jersey, will transmit two special good-will programs to the listeners of the world on Saturday, January 12, from 6 to 8 a. m. and again from 5 to 7 p. m. CBS will recruit the best of its talent for the programs which were arranged by the *Short Wave Club of New York* and the *International Dx'ers Alliance*.

OUTSTANDING broadcasts for the week from Zeesen, Germany, to the North American continent over DJC (6.02 meg) include the following programs. DJC's schedule opens at 5:30 p. m. and continues to 10:30 o'clock:

Monday, Jan. 7: 6 p. m.—Carnival Tunes Old and New; 7:15 p. m.—Talk, *On My Departure from Germany After Six Months*, by Henry Albert Phillipps. Tuesday, Jan. 8: 8:30 p. m.—Picture Book Without Pictures—the Dream; melodramas, Alexander Schwartz, reader. Wednesday, Jan. 9: 6 p. m.—Round Dances from Bavaria, by the Peasants' Band, the Munich Schrammel Band and the Munich Folk Song Trio. Friday, Jan. 11: 6 p. m.—Symphony Concert of Robert Schumann works. Saturday, Jan. 12: 7:15 p. m.—Talk, *Getting Ready for the 1936 Olympic Games*; 7:30 p. m.—*Skiers Greet You*.

AN AIRMAIL REPORT, dispatched to HP5B, of Panama City, Panama, on the occasion of the hearing of the inaugural program of this newcomer at the RADIO GUIDE official Listening Post, at Bloomington, Ill., has brought an airmail response and the first complete news regarding HP5B.

The RADIO GUIDE letter was the first U. S. report received, and the information given here previously regarding the station was quite correct, even to the measured frequency. HP5B will transmit on 6.03 megacycles (*just one channel higher than DJC, Zeesen*) during January on the following schedule: 12 noon to 1 p. m. and 7 to 10 p. m. daily. Although employing but 100 watts, the HP5B signal is strong. Address reports to Box 910, City of Panama, Panama, Central America.

PERUVIAN logs will be clarified somewhat by the information that there are *two* stations in Lima, Peru. The first, OAX4B, at Apartado 1242, Lima, is on 6.25 meg from 7 to 9 p. m. Wednesdays and Sundays. The second, OAX4D (Radio Dusa), Box 853, Lima, is on 5.78 meg from 9 to 11:30 p. m. Wednesday and Saturday.

On Short Waves

By Charles A. Morrison

Time Shown Is Eastern Standard

(Figures In Parentheses Denote Megacycles)

WE ARE upon the threshold of short-wave reception from one of the most fascinating of all countries—China, great and mysterious republic of the Orient. Several reports just received tell of reception of short-wave station XGBD, Shanghai, China on a frequency of 9.58 megacycles. But you will have to get up early to hear China as XGBD is best from 3 to 5 a. m.

Commercial telephone service to China is also under way, and we would advise you to watch closely the U. S. end of this new trans-Pacific link, station KWU at Dixon, California (15.35 meg) during the late afternoons.

IF YOU THINK our Latin-American brothers don't know how to celebrate New Years in typically American style, you should have listened with us to the special program from *Elias J. Pellet's* short-wave station HJ1ABB at Barranquilla, Colombia (6.44 meg) welcoming in 1935. Reception at full loudspeaker volume brought the illusion of actually being transported to the scene of great merriment. Sounds and very few words were used to describe the scene. Train whistles, street-cars clanging, machine guns, fire crackers, fire gongs, sirens, bells tolling—all contributed to this South American picture and gave us one of the most exciting and thrilling hours we have ever put in at the dials.

At 11:45 p. m. on Tuesday, January 1, we were fortunate once more in pick-

Coming Events

This feature, informing of new programs and changes in old, will be found on page 12 of this issue.

ing up the good ship *Setb Parker* in communication with KKH, Kahuhi, Hawaii (7.52). The next port of call for KNR.A will be Suva in the Fiji Islands.

DJC, ZIESEN, GERMANY, (6.02) again offers some programs of interest during the coming week. We suggest:

Sunday, January 13—8:30 p. m., organ concerto in B flat major (Handel). Monday, January 14—7:15 p. m., a dialogue, What the World Owes to Germany. Tuesday, January 15—7:30 p. m., play entitled, Station D in the Arctic Ocean. Wednesday, January 16—6 p. m., concert by the National Socialist Reichs-Symphony Orchestra of Munich. Saturday, January 19—6 p. m., selections from the operetta "Wiener Blut" by Johann Strauss; 7:15 p. m., Seamen's Yarns, Lies and other Incredible Tales.

SOME YEARS AGO the tiny 7½-watt station of *Amando Cespedes Marin* put Heredia, Costa Rica, on the map. T14-NR11 with its fly-power was heard consistently in all parts of the world. The homely personality of Senor Cespedes Marin has created a unique place for him in the hearts of thousands of short-wave listeners, so it is with genuine pleasure that we hear T14-NR11 is soon again to take to the ether lanes, this time with greatly increased power. T14-NR11 will probably transmit on 45 meters (6.66 meg).

TWO STATIONS in South America that ordinarily are none too good have been exceptionally enjoyable during the past week. The first is *Radio Mamzales*, Manizales, Colombia, with call HJ4ABB (7.2) and *Colombia Broadcasting* at Bogota, Colombia (7.4).

On Short Waves

By Charles A. Morrison

(Figures in Parentheses Denote Megacycles)

(Time Shown is Eastern Standard)

THE BYRD Epic of the Ether Lanes brought some new thrills last evening, January 9, when direct two-way conversation between New York and Little America was successfully carried on for a full half-hour period.

An announcement of tremendous scientific import was made by Admiral Byrd when he told Captain Ashley McKinley that recent soundings by research

parties had proved that at least 22,000 square miles of the so-called Polar Ice Cap is resting on solid earth. In fact, the explorer stated, solid earth can be reached in a 15-mile walk from camp.

As the closing chapters in this great radio drama are now being enacted, we urge everyone to hold open 10 to 10:30 p. m. on Wednesday nights for a date with Antarctica.

OFFICIAL word from the E. I. A. R. in Rome, Italy, states that the regular schedules and wave lengths of the new Rome stations are as follows:

		Meters	Meg.
2RO	Daily	2:30-5:00 p. m.	30.67 9.78
2RO	Mon.-Wed.-Fri.	7:45-9:15 p. m.	30.67 9.78
IRA	Mon.-Wed.-Fri.	6:00-7:30 p. m.	49.30 6.08

The afternoon schedule of 2RO is coming in exceptionally well and may be enjoyed for the entire period. We know of no short wave station that equals its splendid modulation. At times it is hard to believe you are listening to a foreign station several thousand miles distant. A woman makes all the announcements (in Italian) for the afternoon programs.

Tune for These

THE NEXT International Good-Will Broadcast in the series being presented by the *International DXers Alliance* of Bloomington, Ill., will come from station HP5B, "Radio Panama, S. A." of Panama City, Panama, operating on 6.03 meg. The broadcast will take place from 9:30 to 10:30 p. m. on Saturday, January 26. There is something different about the programs presented by HP5B which make them outstanding, and we urge you to be on hand for this broadcast.

DJC, ZEESEN, GERMANY (6.02) presents the following features in their North American Zone Broadcast for the next week:

Sunday, Jan. 20: 7:30 p. m., The Homeland revisited in Song. Tuesday, Jan. 22: 6 p. m., Selections from The Flying Dutchman. Wednesday, Jan. 23: 6 p. m., Scenes from Schiller's drama, Wilhelm Tell. Thursday, Jan. 24: 6 p. m., Variety program, All Change Here. Friday, Jan. 25: 7:30 p. m., Kabelijn and Knatterkerl, scenes of merriment at aerial and microphone.

DJC, by the way, offers news in English nightly at 8:15 p. m.

YV5RMO, "Echoes de Caribe," of Maracaiho, Venezuela, was heard on a new frequency at the low frequency end of the 25-meter band on Sunday afternoon (Jan. 6) and signed off near 6 p. m. The station was received with excellent volume and tone quality. We are wondering if this is the vanguard of a general exodus of South American stations to the higher frequencies this Spring. At least this would provide us with a variety of our favorite Latin music during the Summer.

On Short Waves

By Charles A. Morrison

(Time Shown Is Central Standard. Figures in Parentheses Denote Megacycles, or Thousands of Kilocycles)

HERE ARE a few goals to attempt if you've become bored with logging the so-called local short-wave stations—such as Daventry, Zeesen, Rome, etc. In each case the frequencies and schedules of the following stations have been confirmed definitely quite recently:

New station in Penang, Federated Malay States, reported by our Australian correspondent. Call is 7.11Z, frequency approximately 6.09 meg and schedule from 7 to 8 a. m. daily.

VPD, Radio Suva, Fiji Islands (13.705) back on air Monday to Friday from 6 to 7 a. m. and Saturdays 11:30 p. m. to 12:40 a. m.

HAS (15.4), Budapest, Hungary, on air Sunday, 7 to 8 a. m. Report made by Paul Dilg, Evanston, Ill.

CT2AJ, Ponta Delgada, Azores (4.002), now broadcasting Wednesday and Saturday from 4 to 6 p. m.

Advance High Spots

HIGH spots offered in the coming week are, first, a feature program from W2XAF, Schenectady, N. Y. (9.53), on Saturday, February 2, beginning at 5:45 p. m. with a two-way conversation between W2XAF and station HJ1ABB, in Baranquilla, Colombia (6.44). At 6 p. m. W2XAF will "take it away," whereupon HJ1ABB will relay to W2XAF for rebroadcast a delightful hour of Colombian music and song, sung as can only *Elias Pellet* of HJ1ABB. WGY will also carry the 75-minute show on the regulation broadcast wave.

Second of the high spots is the Zeesen, Germany, program. DJC, Zeesen (6.02),

exceptionally good of late on their North American Zone transmissions, announces: SUNDAY, January 27, 6:30 p. m., songs of other nations; TUESDAY, Jan. 29, 5 p. m., selections from the operetta *Grigi* by Paul Lincke; WEDNESDAY, Jan. 30, 5 p. m., favorite works of German Masters; THURSDAY, Jan. 31, the Legend of Beautiful Young Libotee

Moscow Calling

FRIDAY morning, January 11, RNE and RKT, 12 meg and 15 meg respectively of Moscow, Russia, were heard with volume fair in good relaying a program of the All-Union Radio Orchestra for rebroadcast in this country by NBC. The rebroadcast began at 8 a. m.

Tuesday morning, January 15, W2XAF, Schenectady (9.53), was heard carrying on a conversation with Mr. Farmer of VK2ME, Sydney, Australia. The time was 11:45 a. m. Both sides were heard plainly.

One of the highlights of this week was when we picked up HBJ, Geneva, Switzerland (14.53) at 8 a. m. on Tuesday, January 14, testing with WQV, Rocky Point, preparatory to an NBC rebroadcast. The chain hook-up started promptly at 8:30 a. m. The broadcast originated in the Secretariat of the League of Nations, and flashed to the world the first official news of the overwhelming victory of Germany in the Saar Plebiscite.

HBJ was held at full loudspeaker volume and perfect audibility during the entire broadcast. The short wave direct reception in fact was every bit as good as the rebroadcast over local broadcast stations.

SOME TIME ago we announced in this column that for the 10,000th report of reception, HC2RI, in Guayaquil, Ecuador, would award a fine Panama hat. We are pleased to announce this hat will be worn by Miss Edith F. Reeks, of Chicago. So you see, they can tune, too.

A COMPARATIVELY newcomer is YNLF, in Managua, Nicaragua, on (6.4) between 7-8 p. m.

Admiral Byrd's January 16 mission brought the news that the S. S. *Ben of Oakland* is ploughing its way steadily through southern waters closer and closer to Little America. It is expected to reach the Bay of Whales by January 26.

Editor's Note: Next week's issue will contain an exclusive and highly dramatic story by Mr. Morrison, short wave columnist, on how short waves helped Amelia Earhart Putnam to fly the Pacific Ocean.

Studio News and Notes

By Harry Steele

A PACKAGE OF cereal addressed in him without a line of explanatory comment surprised PAUL LANGRAN recently. A day or two later he was pleased to learn that it was an overture from the sponsor who will foot the

Short Waves Amelia's Guardian Angel

By Charles A. Morrison

THE GREAT part that short-wave communication played in the recent flight of Amelia Earhart Putnam from Honolulu to San Francisco, is not even surmised by the millions of persons who followed the flight. It is told here for the first time, as narrated by Mr. Frank D. Andrews to your correspondent. This is the true story of how constant vigil was exercised in guiding Miss Earhart safely across the turbulent Pacific.

To many persons, short-wave listening is simply a thrill, a hobby, a strange and mysterious phenomena of radio science that permits them to pick up foreign countries. Far too few realize the vital commercial importance of short-wave communications. Every day countless lives depend to a very real extent upon the commercial application of these same short-waves.

Walter McMenemy, Carl Haverlin of station KFJ, and Frank D. Andrews, noted short-wave commentator of KFJ, handled the two-way communication between the mainland and the Earhart plane from the time it took off in Honolulu until ten minutes before it landed on the field at Oakland, California. The staff of KFJ also stood watch for seventeen hours straight through, including the telephone girl assigned to the feat.

Frank Andrews, describing it in his own words, says: "Quite some time ago the arrangements for this were made, and when Miss Earhart tested out her plane and radio eight days ago, Walter, Carl and I stood watch. It was really in our judgment that the radio was pronounced a safe bet, and it was decided to carry on with the flight with that equipment! It was a good thing these tests were made, as I never knew that 50 watts on 3105 kc could come through an R5 or R6 2,800 miles off the coast in daylight. Anything else notwithstanding, Miss Earhart addressed all of her communications to KFJ—calling 'Hello, KFJ—Hello, KFJ—Okay.' Then she would shut off. She came on at seventeen minutes and forty-seven minutes past the hour.

"Regular equipment was all set up at the Oakland airport, and plainly, from reports there, they knew nothing of Miss Earhart's progress from 10 a. m. until they sighted her about ten minutes before she landed, while Walter was tuned in to her and heard everything she said during that time. About every fifteen minutes she addressed KFJ. The press report at about 11 a. m. said she was sighted over land 60 miles south of Oakland, and at the moment that the report came out she was

talking to KFJ, saying 'I am coming all right—Okay'. When she said 'Hello, KFJ—Hello, KFJ—I think I see land. I believe I am near San Francisco,' the Oakland force was still trying to get her. In fact, five minutes after that they signed off at the airport—which shows that no one but Walter was getting her.

"At one point she said, 'Hello, KFJ—I am enjoying the opera. It is coming in fine—Okay.' We knew she was all right then. She became very tired about 4:17 but braced up considerably about 9:30 a. m. Carl Haverlin organized two amateurs here at Los Angeles and two at Oakland to handle direct communications to let the public know where she was, as KFJ was stuck with the opera, which by the way, *we did cut into* when everything indicated she was lost. She never gave her speed or approximate bearing, so Mr. Dolberg said, 'Break into the opera, it means her life,' so we cut in as soon as a number was over and came back to her.

"Well, it's all over now, and she certainly deserves all the congratulations in the world. I have had no sleep, nor have I laid on a bed for thirty-six hours, but it was well worth it to be on this radio detail, which made history."

On Short Waves

By Charles A. Morrison

(Time shown is Eastern Standard. Figures in parentheses denote Megacycles, or Thousands of Kilocycles)

NOW picturesque Hungary, one of the political hot spots of Europe, throws its hat into the ring and has joined the ever growing group of countries putting on empire broadcasts, made internationally famous through the pioneering of Daventry, England; Pontoise, France, and Zeesen, Germany.

Powerful 20,000-watt short-wave transmitters have been erected at Szekesfehervar (try that on a sore throat) near Budapest, using the calls of HIAS and HAT respectively. HAT (5.4) may be heard Monday nights from 8 to 9 p. m. and HIAS (15.37) may be heard Sunday mornings between 8 and 9 a. m.

One of the first listeners to report the new HIAS is Paul Dilg, of Evanston, Illinois, who says HIAS comes in weak in the Chicago area about 8:30 a. m. and gradually improves in volume until sign-off at 9.

Mr. Dilg also informs that LKJ1 of Oslo, Norway, gives its latest schedule as 5 to 8 a. m. on 9.54 megs and from 10 a. m. to 6 p. m. on 6.13 megs.

OUR Berlin correspondent, A. A. Gul-Island, sends the following schedule of hours and frequencies for Zeesen during the month of February:

Call	Megs	Hours	Directed to
DJQ	15.28	12:30—2 a. m.	East Asia
DJB	15.20	12:30—2 a. m.	Australia
DJB	15.20	3:45—7:15 a. m.	South Asia
DJH	9.54	3:45—7:15 a. m.	South Asia
DJH	9.54	8—11:30 a. m.	South Asia
DJA	9.56	8—11:30 a. m.	East Asia
DJD	11.77	Noon—4:30 p. m.	Africa
DJC	6.02	Noon—4:30 p. m.	Africa
DJA	9.56	5:15—9:15 p. m.	S. America
DJN	9.54	5:15—10:30 p. m.	Can. America
DJC	6.02	5:30—10:30 p. m.	N. America

Give Us the Byrd!

JUST one of those amusing incidents of short-waving. Few of us have ever thought of Little America as a summer resort, but last night (Jan. 23) as I listened to the news bulletin over GSA, Daventry, at 7:45 to 8 p. m., the announcer stated that at one point in Ontario a temperature of 73 degrees below zero had been reported.

I looked at the thermometer here. It registered six degrees below zero.

In New York City the worst snowstorm since the early eighties was in progress, so can you blame me for considering packing up my things and starting for Little America when *Bill Haines*, on the broadcast of the Byrd Party, reported a measly four degrees above zero?

FROM frozen Antarctica to the South Seas! *Russell Bills*, of Elkhart, Indiana, tells us that on Wednesday evening, January 16, KNRA, the Good Ship *Seto Parker*, was picked up at 10:29 p. m. on a wave length of 24.3 meters (12.44) working with Honolulu and KEN, San Francisco. They were testing different aeri-als for directional effect. Sweeney gave the longitude and latitude, which Mr. Bills later calculated would place the ship about 3,000 miles south and 350 west of Hawaii, or 750 miles east of Samoa. The signal was full loudspeaker strength at start but faded completely at 11:03 p. m. Thus, KNRA is about 7,000 miles away.

Those listening to the *American Hour from Rome* on Wednesday evening, January 21, were treated to another famous opera from the Scala in Milan. *Vito Scipio*, *Beniamino Gigli* and other favorites from the Metropolitan are singing here. Opera lovers should not miss the *American Hour from Rome*. Tune in 2RO (6.0K) Monday, Wednesday and Friday from 6 to 7:30 p. m.

On Short Waves

By Chas. A. Morrison

(Time Shown is Eastern Standard. Figures in Parentheses Denote Megacycles, or Thousands of Kilocycles)

THE past week might appropriately be called "Nicaragua Calling," for during this period two new short wave stations have been logged for the first time from our sister republic of Nicaragua, in Central America.

Lake Nicaragua is the largest fresh water lake between Lake Michigan and Lake Titicaca in the highlands of Bolivia and Peru. Here the City of Managua nestles. "La Voz de los Lagos" appropriately is the Spanish name, meaning The Voice of the Lakes, used in connection with station YN-10P which was logged this week several different nights on an approximately 6.38 megs. The station seems to sign off at 11 p. m., and is located in Managua, according to the frequent Spanish announcements.

The second Nicaraguan was picked up at 7:15 p. m. Saturday, January 26, while tinkling out a little tune on a music box. An announcement in perfect English stated that this was YNE, at Puerto Cabezas, in Nicaragua, about 180 miles from the Panama Canal. Puerto Cabezas is in the heart of the great mahogany forests. YNE was logged on about 6.4 megs.

The address on the new Hungarian stations reported in last week's column, in answer to many requests, is: Research Labs. for Electrical Communications, Gyali St., 22, Budapest, Hungary.

VE9CS, heard in the past in this district, reports that they are getting quite good results on TWO WATTS of power, but hope to increase to ten watts in the near future. This station is owned by Radio Service Engineers, Ltd., 734 Davie St., Vancouver, and report their present schedule as Sunday, 1:45-9 p. m. and 10:30 p. m.-1 a. m.; Tuesday, 6-7:30 p. m., and daily, 6-7:30 p. m. Frequency is 6.07 megs.

Opera lovers should rise early (3:15 to 7:30 a. m.) and tune for VK3LR, Melbourne, Australia (9.58.) Grand opera, with some famous stars singing, is being relayed from an Australian network.

Drummondville, Quebec, has a commercial phone, CJA (on 12.15) which has been very active of late in an apparently new Trans-Pacific Circuit with NIV, Melbourne, Australia (11.99). Both ends may be picked up with fair consistency between 10 a. m. and noon. VK2ME frequently joins the circuit.

THE SPECIAL BROADCAST last Saturday night from Radio Panama, HP5B, at Panama City, was a huge success and every number came through with crystal clearness, marred by only occasional static crashes. Outstanding features of the program were some typical Pan-American numbers. The music was very weird and was accompanied by some high-pitched wailing which could not be called singing.

Here's a tip to song writers: Many an inspiration for new songs could be gotten from a careful study of the high frequency offerings of some of these remote lands.

The "Sally Parker," KNRA, while riding the surf just off the coast of Aitutaki, the northwestern-most island of the Cook group, incidentally supplied a program aired in part by NBC from 11:15 to 11:30 p. m. on Thursday, January 24, which consisted wholly of Phil Lord's interesting effort to teach a group of New York composers a new melody which he picked up from hearing it rendered in its wild, original state by natives of Tahiti.

No doubt this will appear on Broadway revamped and re-worked as the Hit of the Week before this column reaches print.

On Short Waves

By Chas. A. Morrison

(Time Shown Is Central Standard. Figures in Parentheses Denote Megacycles, or Thousands of Kilocycles)

SHORT WAVE conditions have been exceedingly poor during the past week. If it hadn't of been for two fairly good nights, I would have probably taken the axe to my radios. If this is the beginning of the so-called good seven-year cycle for short wave reception, we must be entering at the back door.

SATURDAY NIGHT, February 2, marked the world premiere of still another South American short waver, this time YV6RV (Yay Yay Sess Erray Yay), in Valencia, Venezuela. This new station was built by the famous South American radio engineers, Srs. Hermann and Guillermo Degwitz. The opening was from 7:30-8:30 p. m. and the portions of it that could be unscrambled from HP5B on exactly the same frequency were enjoyed. Several months ago YV6RV started to build their station and reserved the wave length of 49.75 meters (6.03). In the meantime, HP5B, *The Voice of Panama*, came on the air utilizing the very channel which was to have been used by YV6RV. So now neither broadcast is worth listening to. Too bad.

In the meantime, not to be outdone by their next-door neighbor, Colombia, speaks forth with two new short wave voices. John DeMyer, accomplished short wave listener of Lansing, Michigan, reports HJ4ABA of Manizales, Colombia, testing on 50.6 meters (5.93), and HJ4ABN, also in Manizales, on 49 meters (6.12). HJ4ABN gave their address as P. O. Box No. 50. Mr. DeMyer further states that HAT, Budapest (5.4), is now operating 8-9 p. m. each Sunday night.

ONE OF THE GROUP of short wave stations owned by Compañia Radio Boliviana, La Paz, Bolivia, which is a good catch here is CP9 in Oruro, Bolivia, which operates on 5.55 megs from 6:30 to 7:30 p. m. irregularly with a power of 200 watts.

Advance Programs

DAVENTRY, GSA (6.05) and GSC (9.58).

- Sunday, Feb. 17, 5:45-6:45 p. m.—Program of Canadian music.
Monday, Feb. 18, 5:45-6:45 p. m.—Scrapbook for 1921 presented by Lottie Bally and Charles Brewer.
Tuesday, Feb. 19, 6-6:45 p. m.—"Nonsense," 45 minutes of frivolity by Reginald Smith.
Wednesday, Feb. 20, 5:45-6:45 p. m.—B. B. C. Empire Orchestra.
Thursday, Feb. 21, 6:30-6:45 p. m.—Talk, "A View of the British Industrial Fair" by Hon. G. H. Ferguson, High Commissioner for the Dominion of Canada.
Friday, Feb. 22, 5:30-6:15 p. m.—"All Moonshine," variety program.
Saturday, Feb. 23, 5:45-6:45 p. m.—Running Commentary on the second half of the International Rugby match between Ireland and Scotland. Relayed from Dublin. (By Courtesy of the Irish Free State Broadcasting Service).
Saturday, Feb. 23, 5:45-6:45 p. m.—"The Roadside Fire," a program of music and the opera.

- ZEESEN, GERMANY, 49.83 METERS (6.02)
Sunday, Feb. 17, 5:15-6:15 p. m.—Sunday Concert.
Monday, Feb. 18, 6:30-7:15 p. m.—"From the Oder to the Baltic," a radio sequence with music.
Monday, Feb. 18, 7:30-8 p. m.—"At Carnival Time All Swamps Require," a merry radio-ode.
Tuesday, Feb. 19, 5:6:15 p. m.—"Cosi Fan Tutte," selections from the opera.
Wednesday, Feb. 20, 5:5-6:45 p. m.—The Spell of Beautiful Voices.
Thursday, Feb. 21, 5-6 p. m.—Concert by the Berlin Philharmonic Orchestra.
Friday, Feb. 22, 5:6-15 p. m.—Beethoven concert.
Friday, Feb. 22, 6:30-7:15 p. m.—"The Twin Brothers," a song play.
Saturday, Feb. 23, 6-6:15 p. m.—How the Horst Wessel song came into being; talk by Engle Wesse.

On Short Waves

By Chas. A. Morrison

(Time Shown Is Eastern Standard.
Figures in Parentheses Denote Mega-
cycles, or Thousands of Kilocycles)

READERS will recall this writer reporting several weeks ago what he believed to be an unlisted station, YNE, in Puerto Cabezas, Nicaragua. An unusual feature of this reception was the tinkling tune played on an old-fashioned music box before the sign-off.

Yesterday an air-mail letter arrived bringing definite confirmation of this reception at our Listening Post. A. Krog, the owner of YNE, also operates amateur stations YNIBX, and YNIXL. Apparently our reception was the first regular report received from a listener in the United States.

Mr. Krog went on to say that it wasn't a music box we heard but his *alarm clock*. It seems the clocks down there tinkle out little tunes instead of the rude summons used here. The aria was from the opera-*ta*, *The Dollar Princess!*

YNE uses only about 50 watts of power, and has no regular schedule, although Mr. Krog would like to have us watch for him on about 6.5 megs between 6:45 and 7:15 p. m. Furthermore, Mr. Krog will be testing YNIXL (11, 12.76 and 13.95 megs) between 1-2 p. m. on February 18 and continuing daily for some time. Mr. Krog is particularly anxious to contact by phone or CW any powerful amateur transmitter in this country.

Saturday evening, February 16, a broadcast from Admiral Byrd's flagship, KJTY, was intercepted through the Hawaiian relay station KKH, at Kahuku.

WE HAVE HAD so many requests to straighten out some of the mysterious Latin stations lower in frequency than the regular 49-meter band, that we think a little list of the principal ones you will find as you turn your dial higher in meters, or lower in kilocycles, might be of use:

Station XEBT, on exactly 50 meters, or 6 megs, can be readily found by the continual code that is on this frequency, and also by the cuckoo call used for identification. Next lower in frequency on 50.16 meters (5.98 meg) we have a group of three stations which use this channel or very close to it: HIX, Santo Domingo, Dominican Republic, on Tuesday and Friday evenings from 8:10-10:10 p. m.; second, HJABH, Bogota, Colombia, which is on an irregular schedule and can be distinguished by the series of notes struck on a gong before announcing (*Other stations also use this means of identification*); and third, a new station, NECW, a 10-watter of Mexico, D. F., whose modulation is so poor that it can't be missed. Its schedule is reported 7-8:30 p. m. and 10:30 p. m. to 1 a. m.

Now moving on, we come almost at once on 50.25 meters (5.78 megs) to YNIF, Managua, Nicaragua, which has recently moved to this channel. HJABE, Medellin, Colombia (5.93 megs, or 50.59

meters) is next and has been coming in lately with exceptional strength. It is believed they have increased their power. HJABE relays broadcast station HJABK of the same city.

Little HJ2ABC, in Cucuta, Colombia, (51.11 meters or 5.87 megs) is next stop, and it is surprising how well this tiny station comes in at times. Next we arrive at YVSRMO, Maracaibo, Venezuela (51.28 meters or 5.85 megs) one of the principal stations on this end of the dial. One stroke on a gong is the station marker.

WTR, Albrook Aviation Field, in the Canal Zone, was heard with excellent signal strength calling Chanule field on Wednesday evening, February 20.

Advance Programs

EARLY SUNDAY morning, March 3, from 2:30-4:30 a. m., an unusual broadcast will be heard from amateur station VK3ZX located in Victoria, Australia. VK3ZX will operate on 7 megs. It has been heard quite frequently in the United States although using only 25 watts. This will be a real DX catch. This program is sponsored by the *Short Wave Club of New York*. A similar broadcast will also take place on Sunday morning, March 10, at the same hours.

"ON HIS BACK" yet
HE GETS \$100.00 A MONTH FOR 2 YEARS

FOR ONLY 1c A DAY
Would you like to receive up to \$100.00 every month when you need it most—while disabled? Also assure your loved ones up to \$1000.00 in event of accidental death?—all for 1c a day, only \$3.15 a year? Every accident covered, including those of occupation. Benefits increase 10% each year for five years without extra cost. STERLING, an old reliable company, enables thousands to be protected at this amazingly low cost, because we deal by mail.

On Short Waves

By Chas. A. Morrison

(Time Shown Is Eastern Standard.
Figures in Parentheses Denote Mega-
cycles, or Thousands of Kilocycles)

RECENTLY another first was marked up for short waves when a blast from a referee's whistle in Schenectady started the final game in the National Basketball Championships of Colombia, South America. Speaking into a radio microphone at General Electric's short wave station W2XAF, *George Tilden*, who has been identified with basketball as player and referee for 40 years, asked the respective captains of the two teams 3,000 miles distant if they were ready. Then he blew his whistle.

The shrill blast was picked up in the new Olympic stadium in Baranquilla, Colombia, and fed into loudspeakers on the basketball court. The game was part of the third national Olympic games of South America and the two competing teams were from Bogota and Cali in Colombia. Cooperating with W2XAF was *Senor Elias Pellet's* station, UJTABB.

The station that many thought was XETE, Mexico City, coming back on the air, has been definitely established by PAUL DILG, of Evanston, Ill., to be HP5J, of Panama City, on 9.59 megas. They announce in Spanish and English at 8 p. m.

AND THE STATION that has been causing your columnist much concern during the last few weeks on 7.8 megas has at last been found to be HC2J5B in Guayaquil, Ecuador. This station comes through fine almost nightly and signs off at 11:20 p. m. It has never been heard to

announce in English, but before announcing in Spanish a huge gong is struck.

Advance Programs

Daventry, England, GSA (6.05) or GSC (9.58)

Monday, March 11, 6:15 p. m.—A talk from the woman's point of view: "The Drawing Room of the Empire," by Miss Winifred Wrench.

Monday, March 11, 6:45 p. m.—"Major Butterfield's Adventure," a play in one act.

Tuesday, March 12, 6:15 p. m.—Ronald Hill's "An Ecstacy of Music," 45 minutes of song and harmony with Eve Becke, Brian Lawrence, John Burnaby and Ronald Hill.

Tuesday, March 12, 7:00 p. m.—Technical talk by Noel Ashbridge, chief engineer of BBC.

Wednesday, March 13, 6:00 p. m.—The National Hunt Steeplechase, a running commentary by H. C. Lyle, relayed from Cheltenham race track.

Thursday, March 14, 6:00 p. m.—Wendley Evns and Wendley Canadians vs. Winnipeg Monarchs, an account of the hockey match by R. T. Bowman.

Friday, March 15, 7:00 p. m.—Talk, "The Islands of the Empire—Thursday Island," by Dr. Keith Barty.

Friday, March 15, 7:15 p. m.—George Middleton and George Woodratt, syndicated pianists.

Saturday, March 16, 6:15 p. m.—Henry Hall's guest night with the BBC dance orchestra.

Saturday, March 16, 7:00 p. m.—Scotland vs. England; interval summary and running commentary on the second half of the International Rugby Union Match, by Capt. H. B. T. Wakeham.

Zeesen, Germany, DJC (6.02)

Sunday, March 10, 6:15 p. m.—Our Sunday Concert, popular orchestral music.

Sunday, March 10, 7:30 p. m.—"The Fair," a humorous song play by George Benda.

Tuesday, March 12, 6:00 p. m.—Holland program; On the Banks of the Elbe and the Saale, cheerful musical pictures of town and country.

On Short Waves

By Chas. A. Morrison

(Time Shown Is Eastern Standard. Figures in Parentheses Denote Megacycles, or Thousands of Kilocycles.)

THE important bit of news this week is concerning the new transmission now being radiated by the Daventry stations of England. This transmission is known as No. 6, and is designed for the residents of Western Canada, although so far it has been well heard here also. Transmission No. 6 is radiated Sunday, Tuesday, Thursday and Saturday evenings between the hours of 9:30 and 10:30. Daventry's new voice, GSI., on 6.11 megs, or just lower in frequency than W2XI, has been transmitting this new schedule and promises to be one of the best Daventry stations.

It is important also to note that changes have been made in Daventry transmission No. 4. This transmission is now heard daily: 1-4 p. m., GSD (11.75) and GSB (9.51); 4-5:45 p. m., GSB (9.51) and GSC (9.58). Both GSC and GSB have been coming in exceptionally well from about 5 p. m. on.

THE REBROADCAST from a Swiss village on Sunday, March 3, from 12:15-1 p. m. was most interesting and came in with unusual volume over HBJ (14.53). This station is used only at irregular intervals and usually tests with WCG and WQP of Rocky Point.

A SURE SIGN of the transition of the good reception cycle from the 49-meter band to the 19- and 25-meter bands is the

Birthdays at Hand

MANY stars of the air were born between March 17 and April 17. Radio Guide presents their names and their birth dates herewith, so that felicitations and good wishes may be sent them by any who would like to do so. Address the star in care of RADIO GUIDE, 731 Plymouth Court, Chicago, Illinois. Your greetings will be forwarded to the stars—unopened, as you send them—and will be delivered promptly.

excellence with which Pontoise, on its 11.7 meg frequency, has been coming in until late at night.

CHARLES MILLER, of Covington, Kentucky, calls our attention to the fact that XECW, Mexico City, is now operating on 5.97 megs nightly from 11 p. m. to 1 a. m. We had incorrectly stated the frequency of XECW as 5.98 in our column of two weeks ago. Thanks, Mr. Miller, for this correction!

EDWIN HATCH, of Philadelphia, writes that he has heard a new station, HIIJ on 5.78 megs, the same frequency as OAX4D, Lima, Peru. This station, heard with very good volume, gave its location as San Pedro de Macoris, Dominican Republic. (It seems now that about every tenth man in the D. R. is operating a transmitter.)

For Rotarians

IN THE EARLY morning hours of Thursday, March 22, station XEBT, Mex-

ico, D. F. (6), will stage a special broadcast to the Rotary and Lion's Clubs of the world between the hours of 12 and 2 a. m. The occasion for this unusual broadcast will be the Rotary International Convention in Mexico City at that time. Music will be furnished by the famous Police band of the city, and announcements will be made in English. To all reporting XEBT on this concert, the police department of Mexico, D. F., will send a postal card with views of the city and the government seal.

Advance Programs

Rome, Italy, 2RO (6.09)

- Monday, March 18, 6-7:30 p. m.—Talk by Prof. Luigi Ugolini, "The Origins of the Mediterranean Civilization and the Pre-History of Malta." Transmission of the opera, Norma, from the Royal Opera Theater in Rome. Italian lesson. Regional songs. News bulletin.
- Wednesday, March 20, 6-7:30 p. m.—Talk by Prof. Galvani Paluzzi, "Roman Studies." Transmission of the opera, La Forza del Destino, with Beniamino Gigli, from the Carlo Felice theater in Genoa. Italian lesson. Folk songs. News bulletin.
- Friday, March 22, 6-7:30 p. m.—Talk by Ermanno Wolf Ferrari on the Romance of the XIXth Century. Flowers of the past: "The Best Romances of the 800," and opera selections from Addio Giovinetta by Maestra Pietri. Italian lesson. Regional songs. News bulletin.

Advance Programs

Rome, 2R0, (6.097), The American Hour from Rome

Monday, March 25, 6:30 p. m.—Hon. Umberto Guglielmini, General Secretary of the Italian Newspapermen's Syndicate on "The Profession of Newspapermen in Modern Italy." Transmission of "Horus Gudmund" by Mussorgski, from La Scala in Milan. Italian Lesson. Folk Songs. News bulletin.

Wednesday, March 27, 6:30 p. m.—Special program dedicated to the International Federation of Business and Professional Women. Conversation with listeners and replies to letters. The opera "Faust" from the Royal Opera House. Italian Lesson. Regional Songs. News bulletin.

Friday, March 29, 6:30 p. m.—Talk by Lucio D'Ambrasi, writer of the "Italian Book." Symposium Concert from Eilat. Italian Lesson. Regional Songs. News bulletin.

Zeesen, DJC (6.02), DJN (9.54)

Sunday, March 24, 7:30 p. m.—"Nacert and Hand-schek," a play.

Monday, March 25, 8:30 p. m.—Duet on two pianos—Willi Hahn and Walthar Thiele!

Tuesday, March 26, 6 p. m.—Faust Symphony by Franz Liszt.

7:15 p. m.—"The Letter," a sketch.

Wednesday, March 27, 6 p. m.—"The Trumpeter's Duet," overture by Bruno Hart-Warden.

Thursday, March 28, 6 p. m.—"Clivia"—Selections from the opera by Dostal.

7:15 p. m.—Frodo Piddler Life: What Germans Aboard Should Know of the New German List: Talk by Dr. Fritz Sehwirk.

7:30 p. m.—"The Endropleget," scenes from the drama by Wilhelm.

Friday, March 29, 7 p. m.—Half-hour with Authors: Ernst Junger.

Saturday, March 30, 7:30 p. m.—"All Ripe for Sowing in the Soil." Musical Literary Sequence by Gert Ruedell-Schmalzauer.

Davenport, GSA (6.85) and GSC (9.58)

Sunday, March 24, 6:45 p. m.—"In the West Country." The B.H.C. Empire Orchestra.

Monday, March 25, 7 p. m.—Effie Albertson and Company in "Bark Acam." 45 minutes of comedy and songs.

Tuesday, March 26, 6:45 p. m.—Nightmare Series. A Story by H. de Vere Starbuck.

7 p. m.—Program of Light French Music. B.B.C. Empire Orchestra.

Wednesday, March 27, 6:20 p. m.—"Play"—"In the Shadow."

7 p. m.—Organ Recital by Berkeley Mason from Broadcasting House.

Thursday, March 28, 7:15 p. m.—Talk: "Northern Voyages." An account of a Year's Journey from Greenland to Leningrad. Miss Isabel Hutchinson.

7:30 p. m.—Nora Savage and Joy Worth.

Friday, March 29, 7 p. m.—"The Grand National." A running commentary by R. C. Lyle and W. Huddles. Relayed from Aintree near Liverpool.

Saturday, March 30, 6 p. m.—Henry Hall's Guest Night with the B.B.C. Dance Orchestra.

Madrid, EAQ (9.36)

Sunday, March 24, 7 p. m.—Military Band Music.

Tuesday, March 26, 7 p. m.—Orchestral Music.

Thursday, March 28, 7 p. m.—Phonograph Records.

A revised log of the principal short wave stations of the world, together with their frequencies and schedules of operation, will be found in this issue on page 31.

SUNDAY morning, March 10, the short waves brought an interesting sports event of major importance. This was the National Heavyweight Championship Bout between Steve Hammis, of Philadelphia, and the ex-world's champ, Max Schmeling, of Germany. The bout was staged in Hamburg, Germany, and reached this listening post with wonderful volume and clarity through that star German short wave station, DJB (15.2).

The fight was put on at the world's largest sports arena, especially built in 42 days for the occasion.

The actual results are now history, but the cheering of the crowds, the sounds of the blows, the gong, and even the labored breathing of Hammis towards the end was clearly audible. It is significant to note that although Hammis took a terrific drubbing, he hung on with grim determination and by this won the admiration of the German audience.

WE WERE SURPRISED yesterday to have the mail bring us a little present from Berlin. This was a tiny but perfectly made phonograph record, a token from the German short wave stations at Zeesen. A playing of it revealed the German chime signal, *Uh' immer Treu und Redlichkeit*, the familiar voice of the announcer, and two folk songs sung by a boy choir. The record is meant to greet and to remind those who have written the stations that the Zeesen programs await them every evening.

From PAUL DILLG, of Evanston, Illinois, we learn that 2R0, Rome, with a schedule formerly heard on 30.67 meters, seems to have moved that transmission up to the 31-meter band to escape interference. He thinks the new wave length is around 31.26 meters (near W3XAU). This does not affect the American hour series (on 6.097).

FURTHER OFFICIAL dope on the Iceland short wave station is contained in a letter just received from our Copenhagen representative, Hans Priinzen. Mr. Priinzen states: "The Prime Minister of Iceland told me that the transmitter is to be a commercial set with an output of 8½ kilowatts and a directional antenna for Denmark, as there is no telephonic communication between Iceland and Denmark. The new station will also be used for broadcast purposes. Apparatus was constructed at the Marconi Works at Chelmsford, England."

No wave length was stated, but we are assuming this is the new Icelandic station recently heard on 33 meters (9.05).

Hector McCormick, of Bucaramanga, Colombia, writes that his new station will be launched shortly. The call will be HJ2ABB; address Calle 3, No. 630, Bucaramanga, Colombia. HJ2ARB will be on the air starting April 1 on a frequency of 5.97 megs and promises to be one of the best in Colombia.

ALAN A. GULLILAND, of Berlin, writes that as a result of recent tests, *Radio Nations*, of Geneva, Switzerland, has started a second regular weekly broadcast for listeners on the eastern hemisphere. The program for the Far East will consist of talks on the activities of the League of Nations. Broadcasts are scheduled for Mondays at 3:15 a. m. on 18.46 megs.

MORE REPORTS of reception of *Radio Suva*, Fiji Islands, are received. VPD Suva (13.07) is on nightly at 12:30-1:30 a. m. VPD will henceforth be known as VP-1A.

Likewise G. T. Mago, of Birmingham, Alabama, writes: "Heard VPD, Suva, on February 26. They announced they would be off the air until March 9. They were R7 to R8 here and I sent them an hour's report." Gay Bagbee, of Ft. Benning, Georgia, writes: "Hope that I get a verification from VP-1A, as I heard their test

BERTHA DELGADO INGLESIAS
Or call her Senorita Bertha for short, this charming, smiling girl singer of HJ1ABB, Colombia, South America, on 6.44 megacycles, an easy catch for short waves. Bertha's just sixteen, and besides soloing, frequently sings duets with her 14-year-old brother, Gilberto, who also strums a mean guitar. HJ1ABB's regular schedule is 6 to 10 p. m. EST (5 to 9 CST)

with some station in Java. Peculiar music but not the Japanese or Chinese type."

Rome opened a special transmission period to the Far East (China-Japan) on February 10. This transmission will be on 11.81 megs. No regular schedule has been announced.

ACCORDING TO READERS of *World Radio*, W2NAF's claim to having broadcast first from a moving bus-sled is unwarranted, for on Sunday, January 18, a similar broadcast was made from a bus-sled while descending a famous run in Germany.

I also noted in *World Radio* with interest, that the police station, WPDY, 50-wattier at Kokomo, Indiana, had been intercepted in London with sufficient clarity to warrant a verification. "Tis indeed a small world when Calling All Cars is heard

On Short Waves

By Chas. A. Morrison

(EDT and EST shown. Figures in Parentheses Denote Megacycles, or Thousands of Kilocycles.)

THE ears of the world will be tuned in to Daventry this week for the festive celebrations attendant upon the happy occasion of the 25th anniversary of the reign of King George V. The ceremonies will start officially May 6 and last until about May 15 with special events and broadcasts galore.

Some of the highlights of *Jubilee Week* are:

(1.) May 6—6 a. m. EDT (5 EST)—Thanksgiving Service for the King relayed from St. Paul's, in London (GSI² and GSG).

(2.) May 6—1 p. m. EDT (12 noon EST)—Eye-witness account of the progress of the Jubilee Day Celebration, followed by "Twenty-Five Years," a program of the Silver Jubilee reviewing the important events of King George's reign, a speech by the King, and congratulatory messages.

(3.) May 6—4 p. m. EDT (3 EST)—Speech by Rudyard Kipling (GSB and GSD).

(4.) May 9—6:20 a. m. EDT (5:20 EST)—Visit by their Majesties, the King and Queen, to Westminster Hall and address of the King before the House of Commons (GSI² and GSG). (Transcriptions of these events will be repeated in other transmissions as given in our regular programs at the end of this column.)

The new Cuban station being heard on about 10.2 megs in the early evenings has been definitely identified at the Listening Post as CMHD relaying broadcast station CMHB. The address is Radiodifusora Compañia CMHB, Independencia 33, San Spiritus, Cuba. The station usually signs off between 8 and 9 p. m. EDT (7 and 8 EST).

The Radio Department of the Ministry of War, at Bogota, Colombia, is on the air. Inaugural broadcast was heard April 11. Call was given as HKV and reports were asked. The frequency was about 8.7 megs.

G. T. Magee, of Birmingham, Alabama, reports new station IIII, of Santa Domingo, D. R., (10.04) working HJA2 in Bogota, Colombia. They were heard on April 16 and 17 at 5-6 p. m. EDT (4-5 EST). This is probably the new station of the A. T. & T. Co. which works with WNC, Florida outlet.

A LETTER Paul Dilg, of Evanston, Illinois, has just received from Rome gives further light on 2RO:

"The last two weeks Rome has made tests on 31.13 meters at 7-5 p. m. EDT (6-7 EST) asking our American listeners how this wave compares with 49.3 meters for broadcasting the American Hour from Rome. From the first information received, it would seem that the 31-meter wave is free from interference but suffers more from fading and is weaker than the 49-meter wave length."

AN UNUSUAL CATCH was that of Mrs. C. B. Bowles, of Normal, Illinois, who states that on Tuesday evening, April 23, at 10:30-11 p. m. EDT (9:30-10 EST) she had VWY, in Poona, West India, on its frequency of 8.97 megs. Mrs. Bowles says the program (which faded badly) consisted of vocal and instrumental numbers. The songs seemed to be in Hindustani but the announcements were in English.

ALTHOUGH THE JAPANESE stations seldom provide much of real entertainment value, it is still a great thrill to tune direct to the land of the Mikado.

(Continued on Page 23)

On Short Waves

(Continued from Page 19)

JVM, Nazaki, Japan (near Tokio), is transmitting now (10.74) from 5 a. m. to 8:40 a. m. EDT (4 to 7:40 EST) daily. JVM is received here at the Listening Post on this schedule with fair signal and usually best during the last 40 minutes. It is well to remember that Asiatic stations seldom come in with a bang, but have to be coaxed to good signal strength, and often, after ten minutes or so, will pick up considerable volume.

WORLD RADIO recounts that the German *Deutschlander* recently startled the scientific world by announcing that on a certain short-wave transmission they would broadcast phonograph records impregnated with a variety of scents in order to test their transmission possibilities by radio.

Although at this day and age this seems very ludicrous, a famous professor in Cairo, Egypt, says that not only will sight and scent transmission be possible on the ultra high frequencies but the projection of thought and personality as well.

HAS IT EVER OCCURRED to short wave listeners that although most of the evening programs received in this country from Great Britain are electrical recordings of events which took place earlier in the day, the programs from Zeesen, Germany, are programs of live talent? It is interesting to know that the great broadcasting headquarters in Berlin, Germany, is a bee-hive of activity all night long, artists coming and going throughout the wee hours so that we here may be entertained during the evening. When DJC, Zeesen, signs off here at 11:30 p. m. EDT (10:30 EST) it is already 4:30 a. m. the following morning in Berlin!

THE FIRST NEWFOUNDLAND amateur phone station ever logged at this *Listening Post* was heard Tuesday evening, April 23, at 6:30 p. m. EDT (5:30 EST). He announced as VO11, of St. Johns, Newfoundland. Two other new hams recorded here were HC1JW, Quito, Ecuador, South America, and T13AV, Cartago, Costa Rica.

ORK, Ruysselede, Belgium (10.33), has been coming through exceptionally well here on their schedule of 2:30-4 p. m. EDT (1:30-3 EST). Several afternoons of late ORK has been much better than GSD, Daventry (11.75).

Advance Programs

(Subtract one hour for Standard Time)

Sunday, May 5, 9 to 10 a. m. EDT—International good-will transmission to members of International DXers Alliance from RNE (12) and RK1 (15).

Tuesday, May 7, 6:35 p. m., W2XAF, Schenectady, New York. A Special short wave program, Out of the Short Wave Mail Bag. The regular QST short wave program will be heard immediately following this, 6:45 p. m. EDT (5:45 EST), at a new time for those who live in a standard time district.

Daventry, England, GSB (9.51), GSC (9.58).
Jubilee Week Programs

Sunday, May 5, 7:45 p. m. EDT—BBC Empire Orchestra.

Monday, May 6, 7 p. m. EDT—Eye-witness account of Jubilee Day Celebration.

7:50 p. m. EDT—Twenty five Years, review of reign of King George V. Speech by the King.

11 p. m. EDT—Thanksgiving Service for the King, St. Paul's London. Probably on GSL (6.11) also.

Tuesday, May 7, 7 p. m. EDT—Speech by Rudyard Kipling, transcribed.

10 p. m. EDT—Repeat of 7 p. m. broadcast.

Wednesday, May 8, 7 p. m. EDT—Broadcast of Chester Cup Race.

Thursday, May 9, 7:30 p. m. EDT—Visit of Their Majesties, the King and Queen, to Westminster Hall, and speech of King to House of Commons.

11 p. m. EDT—Repeat of above broadcast, transcribed.

Friday, May 10, 7:30 p. m. EDT—Detectives of Fletton, Max Carrados.

Saturday, May 11, 7:45 p. m. EDT—The Empire Bookshelf, readings.

On Short Waves

By Chas. A. Morrison

(EDT and EST Shown. Figures in Parentheses Denote Megacycles or Thousands of Kilocycles.)

FOR those who have been having difficulty hearing Zeesen, Germany, we recommend the new North American Zone broadcast over DJD (11.77) from 6:05 to 11:30 p. m. EDT (5:05 to 10:30 EST). This Zeesen transmission directed to North America was inaugurated April 30 and came in with a loud signal at the *Listening Post*, gradually fading away about a half hour before sign-off.

Other Zeesen transmissions that you may hear according to the new schedule, are listed below:

Time Shown is EDT. Subtract One Hour for EST

		Directed to South Asia:
DJB	(15.20)	1:30 to 3 a. m.
DJB	(15.20)	4:45 to 8:15 a. m.
DJN	(9.54)	4:45 to 8:15 a. m.
DJB	(15.20)	9 to 11:30 a. m.
		Directed to East Asia:
DJQ	(15.28)	1:30 to 3 a. m.
		9 to 11:30 a. m.
		Directed to Africa:
DJD	(11.77)	1 to 5:30 p. m.
DJC	(6.02)	1 to 5:30 p. m.
		Directed to South America:
DJE	(17.76)	9 to 11:30 a. m.
DJA	(9.56)	6:05 to 10:15 p. m.
		Directed to Central America:
DJN	(9.54)	6:05 to 11:30 p. m.

INFORMATION FROM ROME is that a daily transmission is being directed to Japan on 11.8 megs at 10:15 to 11:15 a. m. EDT (9:15 to 10:15 EST).

Other regular schedules from 2RO, Rome, given in EDT, are:

Monday, Wednesday and Friday (6.08), 7 to 8:30 p. m., directed to North America.

Tuesday, Thursday and Saturday (9.64), 8:45 to 10:15 p. m., directed to South America.

Daily (9.64), 3:30 to 6 p. m., unidirectional.

Daily (9.64), 9:15 to 10 a. m., for Mediterranean Basin.

Advance Programs

(EDT Shown. Subtract One Hour for EST.)

DAVENTRY, ENGLAND, GSB (9.51)

and GSC (9.58)

Sunday, May 12, 7:45 p. m.—BBC Empire Orchestra.

Monday, May 13, 7:45 p. m.—Jubilee Celebration of the visits of Prince of Wales, Duke and Duchess of York, and Duke of Gloucester to Wales, Scotland and North Ireland.

On Short Waves

By Chas. A. Morrison

EDT and EST Shown. Figures in Parentheses Denote Megacycles or Thousands of Kilocycles.

CHANGES in the schedules of Daventry are to take effect on Sunday, June 2. The most important is that affecting transmission No. 3, 3-9 p. m. EDT (6-8 EST) which now is transmitted on GSD (11.75) and GSG (9.58). The GSD transmission is by far the best Daventry directs to this country.

Other changes are: Transmission No. 3, 10 a. m.-1 p. m. EDT (9-Noon EST) over GSG (11.79) and GSI (15.14); Transmission No. 4, 1:15-6:45 p. m. EDT (12:15-5:45 EST) over GSI (15.14) and GSD (11.75).

OUR OLD FRIEND DIB, Zeesen, Germany (15.20), was back with a bang on Sunday, May 19, from 1:30-5:30 p. m. EDT (12:30-4:30 EST). The transmission was 100 per cent perfect all the way through, and we hope this heralds the official return of the station to the ether waves.

CLARENCE JONES, director of *La Voz de los Andes* short-wave station HCJB Quito, Ecuador, writes that the station is now transmitting on a new wave length of 30.5 meters (9.81) and is on the air nightly except Monday (Ecuador time) from 7 to 11 p. m. and Sundays from 4-10:30 p. m. (*Quito is 14 minutes slower than EST—an hour and 14 minutes slower than EDT*). HCJB gladly sends its verification card to all radio fans who prove reception of the programs and send an international postage reply coupon.

Joe Stokes, of KDKA, says he recent-

ly heard CTJ, San Miguel, Azores Islands, operating on 19.5 meters (15.4) at 12 noon EDT (11 a. m. EST).

WILLIAM CAUFFIELD, of Tenerife, Canary Islands, writes that EA8AB the *Radio Club of Tenerife*, is operating at present on Monday, Wednesday and Friday from 4:30 to 5:30 p. m. EDT (3:30-4:30 EST). The authorized wave is 40.5 meters, but 49.7 meters (7.50) is being used to escape amateur interference.

HEDGING FROM the statement of Eugene S. Davington, director of W2XAF, Schenectady, the recent program broadcast by the station on April 30 for the *International DXers Album* and the *Short Wave Club of New York* was a huge success. Reports of a congratulatory nature continue to pour in to the station from all parts of the world, one mail alone bringing over 100 reports from England. It will be remembered the station employed the European doublet antenna rather than the South American beam on this broadcast.

Advance Programs

(Time Shown Is EDT Subtract One Hour for EST)

ROME, ITALY, 2RD 16.081

Friday, May 31, 7 p. m.—Consideration of Italian Artists' program commemorating centenary of Vincenzo Bellini. Claudia Muzio, Metropolitan and Chicago Opera sopranos, singing selections from Norma and Scandalosa.

Radio in Jail

(Continued from Page 6)

he learned to wield a piece of lead pipe on darkened highways.

He heard radio music for the first time in his life when his term began. He became intrigued with the idea. The application for equipment and wants that any prisoner is privileged to make the Warden included, when it came from him, the words "any musical instrument." The Warden interested himself in the case, and found that the man had a burning desire to learn to play—music. Not the violin or a piano or a flute—just music. The Warden looked around and found for the

lutions praise? Not at all! He told of his thirst to learn "more music." Those persons to whom he wrote, took time off from their busy schedules of work to answer all the questions he asked them. He quote only two of his earlier: "What key should I play the *andante allegro*?" and "how loud must I play a dominant seventh chord to make it dominant?" Musicians will recognize the crudities of those queries. But he stuck. So did his corresponding mentors on the outside—notably Paul Whiteman, Ferde Grofe, and Vaughn de Leath.

And what happened? At the end of

MIKErosopes

THE fifty-second and final MIKEroscope has been published in RADIO GUIDE. In order to be among the first to receive your MIKEroscope Album and Log Book, mail your set now! Already the staff in charge of this handsome offer threatens to be overwhelmed with the number of claims. Don't delay. Send in your MIKErosopes for your copy of the Album and Log Book today! Address MIKEroscope Editor, RADIO GUIDE, 731 Plymouth Court, Chicago, Illinois. Forward your MIKErosopes in a flat package if you can. Be sure to enclose a slip of paper containing your name and address written, printed or typed legibly.

For your guidance a complete list of the MIKEroscope subjects, as they were published in separate issues of RADIO GUIDE, follows:

1. Ruth Etting	14. Bing Crosby	27. Countess Albani	40. Virginia Payne
2. Joe Penner	15. Jeanie Lang	28. Richard Himber	41. Jack Little
3. Leah Ray	16. Edwin C. Hill	29. Jane Froman	42. Rosemary Lane
4. Fred Allen	17. Ann Leal	30. Tony Wons	43. Ozzie Nelson
5. Masy Livingstone	18. James Melton	31. Irene Rich	44. Frances Langford
6. Rudy Vallee	19. Kate Smith	32. Wendell Hall	45. Charles Winninger
7. Gracie Allen	20. Jack Benny	33. Shirley Howard	46. Eddie Cantor
8. Lawrence Tibbett	21. Jessica Dragonette	34. Little Jackie Heller	47. Boake Carter
9. Annette Hanshaw	22. Vincent Lopez	35. Betty Barthell	48. Dorothy Page
10. Morton Downey	23. Ethel Shutta	36. Frank Munn	49. Ben Bernie
11. Gertrude Niesen	24. Harry Horlick	37. Adele Ronson	50. Roxy
12. Harry Richman	25. Peggy Allenby	38. Edward Reese	51. Michael Ralletto
13. Connie Boswell	26. Ralph Kirbery	39. Robert Simmons	52. Wayne King

Notice: If your set of MIKErosopes is complete except for a few that have been mislaid or lost, the publishers of RADIO GUIDE still wish you to have the Album. Proceed as follows:

Check or circle the numbers of the missing MIKErosopes on the list herewith and send it together with five cents (stamps or money order) for each one missing, to RADIO GUIDE, 731 Plymouth Court, Chicago, Illinois. Reprints of these will be sent you by return mail when you place your Album order as explained above.

It is of paramount importance that you send for your Album NOW! The more promptly you act, the sooner your Album can be mailed. Do it today!

- 7:15 p. m.—Review of the Royal Air Force.

Short Wave Numerals

RADIO GUIDE now carries the advance programs of principal American short-wave stations. Those now listed include W2XAD and W2XAF, both of the General Electric Company, in Schenectady, N. Y.; W2XE, of the Columbia Broadcasting System, New York, N. Y., and W8XK, the Westinghouse Elec. & Mfg. Co., East Pittsburgh, Penn. The method of listing is this: Immediately following the listing of a program which is carried by W2XAD will be found "sw-15.33" in parentheses. This indicates that the program may be heard on short waves on the frequency of 15.33 megacycles (15,330 kilocycles) which is the channel of W2XAD.

Similarly, the figure 9.53, representing 9.53 megacycles, signifies programs emanating from W2XAF on that frequency. W2XE is indicated by either 15.27 or 6.12, and W8XK by 21.54, 15.21, 11.87 or 6.14.

Listeners remote from large stations will find reception on the short-wave channels often better than on the regular broadcast waves. Of course, you need a short-wave set.

On Short Waves

By Charles A. Morrison

(EST and CST Shows. Figures in Parentheses Denote Megacycles)

SHORT wave reception, especially from Trans-Pacific stations, is excellent at present. Summarizing dozens of reports on recent Trans-Pacific reception we find that:

Programs of Eastern music are being broadcast every Tuesday morning from PLV, Bandung, Java (9.42), and irregularly on other days. These transmissions are at 10-10:30 a. m. EST (9-9:30 CST) and heard on the U. S.

PLI, Bandoeng, Java (18.83), tests and broadcasts irregularly from 12-10:4:30 a. m. EST (11:30 m.-3:30 m. CST). It also calls Tokyo at 9 p. m. EST (8 CST).

All of the Dutch East Indies stations of the N.I.R.O.M. announce in English between 6:25 and 6:30 a. m. EST (5:25 and 5:30 CST).

Joe Miller of Brooklyn, New York, informs that P.L.P., Randoeng, Java (11.00), seems to relay YDA with all sorts of oriental music between 5-6 a. m. EST

each Monday and Thursday afternoon from 4-5 p. m. EST (3-4 CST).

JVF, Nazaki, Japan (15.62), still broadcasts musical programs irregularly at 4:30 p. m. EST (3:30 CST).

According to a verification received by John Shanks of Russellville, Tennessee, TIRCC, of San Jose, Costa Rica, operates on 6.55 meg. or 45.8 meters with 300 watts power.

The International Short-wave Club advises that 11P511, the *Voice of Calcutta*, Panama, soon will be heard on 6.07 meg. The transmitter will use 300 watts power.

W2XAF and W2XAD of the General

Electric Company are the first to make a move in the direction we have been advocating of signing off with our national anthem. Beginning July 15, all programs from these stations will be concluded by the playing of the entire selection *Star Spangled Banner*.

There is an Italian short-wave station at Algoi, Italian Somaliland, which communicates directly with Rome. According to reports use of the station figures importantly in plans for the forthcoming war with Ethiopia.

VI3MR, *The Voice of Guinea*, at Georgetown, Guinea, has verified Edward Goss report which was mentioned in this column some time ago. It is on 7.08 meg

and transmits the following schedule: Sundays, 7:45-10:15 a. m. EST (6:45-9:15 CST); Mondays, 3:45-4:45 p. m. EST (2:45-3:45 CST) and 6:45-7:45 p. m. EST (5:45-6:45 CST); Wednesdays, 6:45-7:45 p. m. EST (5:45-6:45 CST); Thursdays, 5-6:45 p. m. EST (4:45 CST), and Saturdays, 6:45-7:45 p. m. EST (5:45-6:45 CST).

Hector McCoenick of Bucaramanga, Colombia, states that HKV, Bogota (7.9), is on from 8-10 p. m. EST (7-9 CST) on Tuesday, Thursday and Saturday... HJ4AB, *Exon del Conde*, at Ibague, Colombia, works daily on 6.3 meg from 7-10 p. m. EST (6-9 CST)... HJ4ABC, Pereira, Colombia (6.1), is on from 7-10 p. m. EST (6-9 EST) daily... HJ1-ABC, Quindio, Colombia, is installing a new transmitter of 100 watts... HJ3ABF, Bogota, Colombia, soon will increase its power to 250 watts. This station never has verified correct reports, but Mr. McCoenick states that he is making arrangements so that correct reports of members of the International DX'ers Alliance will be answered.

Die Fledermaus, The Bat, by Johann Strauss, will be featured for a full hour over DJD, Zeelen, Germany (11.77), Tuesday, July 30, at 6 p. m. EST (5 CST). Although there are six known composers by the name of Strauss, this Johann undoubtedly is the most famous. He is composer of *The Blue Danube* waltz. *Die Fledermaus*, forerunner of present-day Viennese operetta, first was produced in Vienna in 1847. It has been heard in the United States at the Metropolitan with such stars as Caruso, and DeWolfe Hopper once was in the cast when it was given at the New York Casino.

The New Zealand DX Radio Association reports that short-wave station W9NF of Chicago (6.1), is making itself well known with its miso-language announcements at 6:30 p. m. New Zealand time. It is received with perfect audibility and good signal strength every day.

Mrs. Bernice Wilson of Radio Fellowship Chapter of the International DX'ers Alliance, at Los Angeles, reports an unusual reception of Tripoli, North Africa, at 5:23-6:23 a. m. EST (4:23-5:23 CST) on 9.46 meg. This station announced, "This is Tripoli." Ordinarily this station works in a commercial circuit with IAC, Italy.

On Short Waves

(Continued from Page 13)

ZBW, Hong Kong, China, still is being heard on 8.75 megs. Reports should be addressed to Miss Betty M. Billing, Assistant Secretary, Hong Kong Broadcasting Committee, P. O. Box 200, Hong Kong, China. Although the short-wave call is officially ZCK, the broadcast band call of ZBW always is used in the transmissions.

ZHJ, Penang Straits Settlement, evidently has changed its frequency, according to advice received by John Clark of San Francisco, which states they are now on 7.63 megs daily except Sunday from 7 to 9 a. m. EST (6-8 CST).

Advance Programs

(Time Shown is EST; for CST Subtract One Hour)

SPECIAL EVENTS

Monday, July 29, 9 to 11:30 a. m.; GSG (17.79), GSF (15.14), London—Commentaries on Davis Cup challenge round.
3 to 3:15 p. m.; GSB (9.51), GSD (11.75), GSL (6.1), London—Exploring London's Green Belt, talk.

On Short Waves

By Chas. A. Morrison

(EST and CST Shown, Figures In Parentheses Denote Megacycles.)

CONSIDERABLE controversy has arisen as to whether HJ5ABE, Cali, Colombia, on 14.1, was a fundamental frequency, or just a harmonic of this station's supposed frequency, 7 meg. According to a letter from the U. S. Bureau of Foreign and Domestic Commerce received by Dr. Twomey, of Fort Snelling, Minnesota, HJ5ABE operates only on a frequency of 14 meg or 21.25 meters, and with a power of 50 watts.

Still another European country shortly will start an Empire short-wave service for the benefit of its countrymen residing in foreign countries. The Czechoslovakian government is installing a 35-kilowatt short-wave transmitter at Polebrady, near Prague, according to World Radio reports. The station will be used for spreading Czech and Slovak culture, it is stated.

WILLIAM E. CAULFIELD, Tenerife, Canary Islands, reports that he heard CT1AA, Radio Coloniale, Lisbon, Portugal, announcing an additional wave-length of 25.34 meters (11.83) to be used on Saturdays (presumably from 3:30-6 p. m. EST (2:30-5 CST) due to interference from HHL, Geneva, Switzerland, on the former frequency of 9.59 meg.

RV15, Khabarovsk, U.S.S.R. (4.27), long one of the most eagerly sought DX stations, soon will take on an added interest. With the introduction of the English language at the station, short-wave listeners can expect to have their reports confirmed. Heretofore no verifications have been issued from this station. RV15 broadcasts from 2:30-9:30 a. m. EST (1:30-8:30 CST), but usually is not heard in this country until around 5 a. m. EST (4 CST).

Z11 is owned by the Penang Wireless Society, 40 Perak Road, Penang, Federated Malay States, and broadcasts daily from 7-9 a. m. EST (6-8 CST) except Sundays. The station recently has adopted a new frequency of 7.63 meg.

Z11, Johannesburg, South Africa, broadcasts a special program on Thursdays and Sundays from 12 mid-2 a. m. EST (11 p. m.-1 a. m. CST) on a frequency of 6.09 meg. The program is intended especially for reception in the United States, and reports are earnestly requested.

The new Portuguese station is *Juventa Radio*, 304, Rua de Santa Catarina, 308, Oporto, Portugal (5.70), operating at irregular intervals until such time as a regular permit is authorized by the Government.

CEC, Santiago de Chile (10.67), has been testing on Thursday and Sunday evenings between 8:30 and 9 p. m. EST (7:30 and 8 CST). CEC signs off with bugle calls.

PLP, Bandung, Java (11), is broadcasting in the early mornings and is best heard between 5:15 and 8:30 a. m. EST (4:15 and 7:30 CST).

The call letters of OAX4B, Lima, Peru, have been changed to OAX4G to distinguish the short-wave station from a broadcasting station having the call OAX4B. OAX4G is owned by Roberto Grellaud & Cia., Sen. C, Avenida Ahancay 915-923, Lima, Peru. It operates on 6.23 meg and can be heard best when it is using high power on Wednesday nights from 7-11:30 p. m. EST (6-10:30 CST).

Saturday — Continued

On Short Waves

(EST and CST Shown. Figures in Parentheses Denote Megacycles.)

APPARENTLY Iceland is finally on the air with its new short-wave transmitter. According to a British listener, Iceland was heard at 4:50 p. m. EST (3:50 CST) on Wednesday, July 10, on a frequency of 12.24 megs, and announced as: "Hier ist der Reykjavik, Iceland."

Later in English came the explanation: "Here is the new short-wave transmitter at Reykjavik testing on a wave-length of 24.52 meters (12.24). We are now going over to a wave-length of 33.11 meters (9.06) and shall be on the air again in about ten minutes."

At 5:15 p. m. EST (4:15 CST) Reykjavik was heard on 33.11 meters. The announcer stated the station was using 7,000 watts and would be on the air again the next evening.

EVERY SHORT-WAVE LISTENER should have an up-to-the-minute and authentic list of stations and their hours of operation. Through an exclusive agreement with the *International Dx'ers Alliance*, of Bloomington, Illinois, any reader of **RADIO GUIDE** sending a 3c U. S. stamp to the Short Wave Editor, **RADIO GUIDE**, 731 Plymouth Court, Chicago, Ill., will be sent free of charge a copy of the *Globe Circler*, containing the latest short-wave notes and a complete short-wave list.

At Conclusion of Opera (Time Indefinite)—Italian Lesson; Folk Songs; News.

On Short Waves

By Charles A. Morrison

(EST and CST Shown. Figures in Parentheses Denote Megacycles.)

RADIO MAROC. Rabat, Morocco, in North Africa (12,825 and 8,041) always has been one of the lesser known short-wave stations, and persons holding verifications from this station can consider themselves very lucky. Not long ago Radio Maroc increased its power to 25,000 watts, which should make it much more audible in North America. Rabat programs are given in Arabic, French, and English. Radio Maroc broadcasts on Sundays only from 7:30 to 9 a. m. EST (5:30-8 CST) on 12.825 megs and from 3 to 5:30 p. m. EST (2-4:30 CST) on 8.041 megs. E. D. Purkey of Inglewood, California, has recently received a verification from Rabat, and says reports should be addressed to the Director General, Telephone, Telegraph, Rabat, Morocco, North Africa.

Frank D. Andrews, DX commentator of station KFI, reports that ZTJ, Johannesburg, South Africa (6,091), has a new schedule of 3-4 a. m. EST (2-4 CST) and 7-9 a. m. EST (6-8 CST). As ZTJ is still in the experimental stage it may be heard working at other times. The power is 5,000 watts. Mr. Andrews also states that PLE, Bandoeng, Java (9.4), is heard relaying programs to Tokyo from 1:30 a. m. until 1 a. m. EST (12:30-3 CST) irregularly. PLE is on 18.82 megs.

Remote and fierce Afghanistan is following the lead of her more modern neighbors, and plans to install several wireless stations in the important centers of the country. The Kabul station will be fitted with a voice transmitter for communication with Moscow, Tokio, Shanghai and New York. By using directional antennas communications with Rio de Janeiro, Cape Town, and Melbourne also will be established. The equipment will be of the very latest type manufactured by the British Marconi Company.

The Daventry transmission over GSF (15.14) from 4:15 to 5:45 p. m. EST (3:15-4:15 CST) is being exceptionally well received at present. At times this transmission is even more enjoyable than the GSD transmission from 6 to 8 p. m. EST (5-7 CST).

Station RTZ, believed to be in Irkutsk (Siberia) U.S.S.R., may be testing on 14.79 megs around 10:30 p. m. EST (9:30 CST) according to H. S. Bradley of Hamilton, New York.

The new General Electric all-wave receivers, in addition to utilizing the novel metal tubes which recently were developed in the House of Magic, will also feature a simple but radically different type of dial resembling in action and accuracy a slide rule!

On Short Waves

THE Canadian government is making provisions to rebroadcast daily the best short-wave offerings of Daventry, England. These broadcasts will be relayed over the entire Canadian Radio Commission network of stations, including CJRO, Winnipeg (6.14), and CJRX, Winnipeg (11.72), popular short-wave stations regularly received in the United States.

These rebroadcasts will be picked up at a sensitive receiving station near Ottawa. This service will give American short-

wave listeners a chance to hear their favorite London programs via Canada when unfavorable weather conditions render them of poor value direct from England.

In response to RADIO GUIDE's offer to send an up-to-date short-wave log and information on short-wave stations in the form of the *Globe Circler*, to any reader sending in a 3c stamp, the demand has been so enormous that the *International Dx'ers Alliance* has announced the supply is temporarily exhausted but that all un-

filled requests so far received will be mailed a revised booklet on September 1. No new requests will be honored.

Short Wave Numerals

RADIO GUIDE now carries the advance programs of principal American short-wave stations. Those now listed include W2XAD and W2XAF, both of the General Electric Company, in Schenectady, N. Y.; W2XE, of the Columbia Broadcasting System, New York, N. Y., and W8XK, the Westinghouse Elec. & Mfg. Co., East Pittsburgh, Penn. The method of listing is this: Immediately following the listing of a program which is carried by W2XAD will be found "sw-15.33" in parentheses. This indicates that the program may be heard on short waves on the frequency of 15.33 megacycles (15,330 kilocycles) which is the channel of W2XAD.

Similarly, the figure 9.53, representing 9.53 megacycles, signifies programs emanating from W2XAF on that frequency. W2XE is indicated by either 15.27, 11.83 or 6.12, and W8XK by 21.54, 15.21, 11.87 or 6.14.

Listeners remote from large stations will find reception on the short-wave channel often better than on the regular broadcast waves. Of course, you need a short-wave set.

6:45 p. m.—Namesake Twins of the Empire, talk (GSD, GSC).

7 p. m.—Chamber music (GSD, GSC).

7:10 p. m.—Deoardo Faticanti, baritone (ZRO).

10:30 p. m.—*The God on Sticks, reading (GSD, GSC).
10:45 p. m.—News (GSD, GSC).

On Short Waves

By Chas. A. Morrison

(EST and CST Shown. Figures in parentheses denote megacycles.)

THE increase in power for YV2RC, Caracas, Venezuela (6.11), has placed this station in the front ranks of Latin broadcasters. It may be heard nightly with exceptionally high class programs up to 9:30 p. m. EST (8:30 CST). YV2RC comes in just a trifle lower in frequency than W2XE, Wayne, New Jersey. Sr. Edgar J. Anzola, director of the station, in writing states that YV2RC now is reaching foreign countries with great signal strength, and reports are pouring

in from all parts of the world with increasing volume each day.

Donald Teague of Santa Paula, California, says that the station is tremendously loud out there, and that he has to listen for the Spanish talking to be sure it is YV2RC, and not W2XE or W3XAL.

CEC, Santiago, Chile (10.67), was very good on its Sunday night broadcast, August 18, from 8:30-9 p. m. EST (7:30-8 CST).

A new commercial station in Wellington, New Zealand, ZLO, on 12.1 megs, was heard recently from 4:45 to 6 a. m. EST (3:45-5 CST) with excellent volume.

9:15 p. m.—Dance music (DJD, DJC).

On Short Waves

(EST and CST Shown; Figures in Parentheses Denote Megacycles.)

By Chas. A. Morrison

(2:40 CST). The intelligibility was fair. So be on the look-out for TFK, the Voice of Iceland, 12.23 megs. DJB, Zeesen, Germany (15.20), also carried the Iceland broadcast, and immediately afterwards relayed a program to America from Germany.

NO DOUBT many of our readers heard the first short wave broadcast from Iceland to the United States as relayed over NBC Sunday afternoon, September 1, but I wonder how many of you had the great thrill of finding the Icelandic short wave station from which the broadcast was emanating. After many months of anticipation the Radio Guide Listening Post tuned in TFK, Reykjavik, Iceland. It was 11-K without a shadow of a doubt. TFK was using its 12.23 megacycle channel, and at exactly

2:45 p. m. EST (1:15 CST), preceding the re-broadcast, came on the air and said "Hello, Berlin, this is Iceland calling." After contacting Germany the conversation was carried on in German. The broadcast from Iceland was beamed on DIQ, Germany (10.29), from which point it was picked up for rebroadcast to the United States. The signals from Iceland were held throughout the entire broadcast until they left the air at 3:40 p. m. EST

- 7 p. m.—Venezuelan music (YV2RC).
- 7:15 p. m.—Sound pictures (DJC).
- 7:30 p. m.—Piano recital (CJRO, CJRN).
- 7:30 p. m.—Sveugali, crooner (YV2RC).
- 7:30 p. m.—Light music (DJC).
- 8 p. m.—Operatic arias (YV2RC).
- 8:45 p. m.—Erich Hanneman, soloist (DJC).
- 10 p. m.—Concert entertainment (GSC, GSL).

On Short Waves

By Chas. A. Morrison

(Figures in Parentheses Denote Megacycles.)

MORE complete reports from Addis Ababa give us some additional information concerning short-wave transmission from Ethiopia.

The only short-wave station on the air in Ethiopia is the personal property of Emperor Haile Selassie, uses a power of two kilowatts and broadcasts under the calls ETA, ETB and ETC. ETA is on 7.62 megacycles, ETC is on 18.27 and ETB has been reported on 11.98 and 12.12 megs, respectively. Tom Taaffe, Jr., of Elmsford, New York, airmails that he is hearing ETB on 12.12 megs nearly every afternoon from 5 to 5:13 p. m. testing, in French and English.

NBC's attempt to contact Floyd Gibbons at 1 p. m. Wednesday, October 23, was a failure but CBS got through with a fine relay from Addis Ababa the same afternoon from 5 to 5:15 p. m. The broadcast was picked up on an approximate frequency of 11.98 megacycles, which may have been ETB. The station signed off at 5:15 p. m. without an announcement other than "All right, New York, take it away."

As predicted here some weeks ago, a new nation has begun short-wave broadcasting. The Chicago Short Wave Radio Club notifies us that short-wave station SPW, located at Babice, Poland, some six miles from Warsaw, is now on the air.

SPW first was heard on October 13, from 11:30 a. m. to 12:30 p. m., using a frequency of 13.63 megacycles. Announcements were made in Polish, German, French and English, by men and women announcers. Directional antennas used were beamed on Japan and South America.

Reports should be addressed to the Minister of Postes and Telegraph, No. 5, Warsaw, Poland.

GSA (6.05) has taken the place of GSB (9.51) on the BBC North American transmission from 6 to 8 p. m. GSC (9.58) also broadcasts this period with GSA.

Germany is being heard at present through the very excellent morning transmissions of DJB (15.21) from 10:30 to 11:30 a. m. each morning. DJB broadcasts a special North American period on Sunday from 12 noon to about 3 p. m.

- 11:30 p. m.—Northern Messenger (VEBON, CJO).
- 12 mid.—Overseas Hour (JVN).

The NEW WAY TO KEEP BEER FRESH

Beer fresh on old-fashioned pitcher or dispenser. Keep beer you bring home from the store or tavern fresh and tasty—Just as it comes from the barrel or bottle, and serves it as a bar stand—under pressure. Easy to operate. Simply fill the galvanized glass jar, attach the E-I dispenser and squeeze rubber bulb a few times to introduce air pressure. Fresh, foamy beer can now be drawn by simply pressing down on a button.

What holds after the party may be kept in kitchen or refrigerator almost indefinitely. Safety valve prevents over-pressurization. Cleaned in a few seconds. Made of heavy metal. Guaranteed long standing with a special plastic and anti-rust finish. SEND NO MONEY. We will gladly send you one E-I Dispenser for \$1.98 (this postage and C.O.D. charges or, if you wish, simply send \$1.40 and we will PREPAY the dispenser to your address. By sending the remittance with the order you save the postage charges. Under your E-I Dispenser label.

THE EHLEN-ILER MFG. CO., South Wyandot St., D-10, Dayton, Ohio

STAMP COLLECTING

If you are a stamp collector and you desire to participate in the most exciting, entertaining and educational of all pastimes, The Hobbies Club, San Francisco, Regular Member, Josephine Manning, 1010 Washington, recommends an excellent group, and offers the following plan. ON SHORT WAVES

By Chas. A. Morrison

(Figures in Parentheses Denote Megacycles, or Thousands of Kilocycles.)

EST Shown; For CST Subtract One Hour

SHORT-WAVE listeners throughout the world accompanied an intrepid group of scientists on one of the most thrilling trips ever taken in the interests of science, the stratosphere ascent of the U. S. Army balloon last Monday, November 11. Almost the entire story of the ascent was relayed by means of the short-wave transmitter inside the gondola, and could be picked up on any short-wave receiver.

Short-wave stations relaying the ascent story were W9XF and W3XL, two NBC stations, W10XF, a ground station at Rapid City, North Dakota, from where the ascent was staged, and W10XF11, the transmitter in the gondola of the balloon. W10XF operated on 6.35 megacycles, and W10XF11 used 13.05 meg, with a power of eight watts. Through these stations a much more complete report of the flight was transmitted than was relayed to the broadcast band stations by the NBC network.

At about 8:45 a. m. Eastern Standard Time, the first signals were received from W10XF11, in the balloon. This was before the big bag had left the ground. These signals were 100 per cent intelligible throughout the trip. At the ceiling of approximately 74,000 feet the signals were perfectly audible and had taken on a crispness not present in other transmissions.

As the bag descended, signals attained unbelievable volume and clearness, until, during the last 20,000 feet of the rapid fall, every sound from the interior of the gondola was picked up. Finally Stevens yelled, "Stand by and hold on," and both men clambered out onto the rigging, to withstand the shock of the landing. When the balloon struck, the transmitter was damaged so badly that it was forced off the air.

Unless poor atmospheric conditions or temperamental bridge experts interfere, Monday, November 25, will see grand slams, doubles and redoubles, and maybe a revoke or two crackle across the ether in the international bridge match scheduled between teams representing the United States and Argentina. This match is being broadcast by stations W2XAF, Schenectady, New York (9.53) and LSX, Buenos Aires (10.35). The broadcasts will begin at 9 p. m. and continue until twelve hands have been played.

ON SHORT WAVES

By Chas. A. Morrison

Figures in Parentheses Denote Megacycles or Thousands of Kilocycles

EST Shown; For CST Subtract One Hour

OFFICIAL information on the short-wave transmitters of Ethiopia has been received by Mrs. Dorothy Hall of New York City, and Sergeant Guy L. Bigbee, of Fort Benning, Georgia.

There is one short-wave telegraph-telephone transmitter in Ethiopia. This is the personal property of Emperor Haile Selassie, and is located at Akaki, near Addis Ababa. This station transmits on four various frequencies as follows with a power of 3,000 watts: ETA, 18.27 megacycles; ETB, 11.955 megacycles; ETD, 7.62 megacycles, and ETG, 5.88 megacycles.

Normally these transmissions are limited to telegraphy, and daily transmissions are sent out in code on ETA, from 1 a. m. to 2 p. m., and on ETB from 2 p. m. to 5:30 p. m. Telephone transmissions are irregular but usually occur over ETA from 12:30 to 1 p. m.; over ETB between 5 and 5:45 p. m., and over ETD between 5 and 6 p. m.

Reports should be addressed to F. Hammar, Chief Engineer, P. O. Box 283, Addis Ababa, Ethiopia, North Africa.

Ethiopia can be heard in the United States with good signal strength and intelligibility. Wednesday, November 20, from 4:55 to 5:20 p. m. ETB was received at the Radio Guide Listening Post in Bloomington, Illinois, with every word plainly and easily audible. Transmissions began with these words, "Hello, New York. This is Addis Ababa calling the Columbia Broadcasting System Hello America—"

ON SHORT WAVES

By Chas. A. Morrison

Figures in Parentheses Denote Megacycles or Thousands of Kilocycles

German authorities claim that by the time the Winter Olympic games are started their short-wave equipment will be unrivaled in the world. Several powerful new transmitters are to be ready for these relays, and already new transmitters are to be heard testing on various frequencies. DJI, Zeesen, may be heard nightly from 5 to 7 p. m. relaying DJA, on a new frequency of 9.65 megacycles. DJJ, Zeesen (10.04), is testing irregularly from 2 to 4 p. m. Neither of these stations are using full power as yet.

IIVJ, Radio Vaticano, located at Vatican City, Italy, may be heard with an additional schedule on Saturdays, from 10 to 10:15 a. m. IIVJ is on 15.12 megacycles.

Additional schedules from Tokio have been announced for tests to Europe but the programs also may be heard in this country. They are: Tuesday, 2 to 3 p. m., JVH, Nazaki (14.6), and Friday, 2 to 3 p. m. JVM, Nazaki (10.74). The regular daily short-wave relay schedules of JDAKI directed to Manchukuo and Chosen are being heard in this country from 5.20 to 11 p. m. over JVH (14.6); 1:50 to 7:40 a. m. over JVN (10.66), and 4 to 7:40 a. m. over JVT (6.75).

PAUL RIEGER (Est. 1923) 187 Davis St., San Francisco

On the Short Waves

Figures in Parentheses Denote Megacycles or Thousands of Kilocycles

EST Shown; For CST Subtract One Hour

IN HIS address to his people on Christmas Day last year His Majesty King George spoke of his "great and wide-spread family." This Christmas for the fourth year in succession the peoples of that family will exchange greetings over the world through short-wave radio.

At the beginning of the special BBC Christmas Day program carolers in London will sing God Bless the Ruler of the House, expressing in song the friendship and unity which is the spirit of Christmas. Then will follow ten sound pictures, five of them from various points in the British Isles and alternately one each from Canada, South Africa, India, Australia and New Zealand. In these sound pictures families will be heard all over the world united and happy in themselves, and through ties of kinship and common loyalty made true members of that "great and wide-spread family." The program on which King George will speak will open with the ringing of Christmas bells in the ancient city of Bethlehem.

Listen for this Empire broadcast which has become a short-wave institution Christmas morning at 9:20 a. m. over GSF (15.14), GSG (17.79) and GSD (11.75) and also over the facilities of the Columbia Broadcasting System in the United States.

A British short-wave listener, M. R. Lawton of Manchester, states that at 11 a. m. daily the Italian stations broadcast a war zone bulletin direct from Asmara via the Italian stations at Coltano, Italy. One of the Asmara stations used for this broadcast is ITX, on 10.714 megacycles.

Soon an NBC transmitter using the call letters WOEII will be put on board one

By Chas. A. Morrison

of the trans-Pacific ocean-hopping Pan-American clippers, probably the China Clipper, and an NBC announcer will bring to your loudspeakers the thrill of thrills, a running account of crossing the mighty Pacific by air. Short-wave listeners may tune for the signals of WOEII as it is carried farther and farther over the boundless wastes of the Pacific. WOEII is a 100-watt transmitter, especially designed for air-craft use, and crystal controlled. It will operate on 2.76; 4.797; 8.655 and 12.862 megacycles depending upon the time of day or night the transmissions are being made. WOEII will keep in contact with the Bolinas stations in California, and also with Kahuku, Hawaii, stations KRO (5.845), KIO (11.68) and KKII (7.52).

Venezuela speaks from a new station, YVI2RM. It is located at Maracay, Venezuela, and broadcasts on approximately 6.31 megacycles. YVI2RM comes through exceptionally well throughout the evening. According to the Chicago Short Wave Radio Club the address of YVI2RM is Avenida Bolivar Num. 125 and the title of the station, which is owned by Jose R. Gomez, is Emisora 24 de Julio.

A rare DX catch is CR7AA, Laurence Marques, Mozambique, Portuguese East Africa, which is broadcasting at present on 6.135 megacycles. This station tests Saturdays and Sundays in the mornings and up until 1:30 p. m. It recently has been heard in the vicinity of Los Angeles.

Paul Dilg of Evanston, Illinois, is hearing 11H2S, Port-au-Prince, Haiti (6.178), daily except Sunday from about 7 to 10

p. m. 11H2S relays broadcast station 11HK. Announcements are made in French and English. According to Mr. Dilg, VK3ME, Melbourne, Australia, is not on 9.51 megs any more, but actually transmits on 9.49 megs. The change probably was made so as not to interfere with GSB on Transmission Number One.

W2XE, popular broadcasting station of the Columbia network, is now operating on a newly authorized frequency of 17.76 megacycles from 11 a. m. to 1 p. m. daily.

According to the BBC Empire schedule sheet, GSF (15.14) has replaced GSD (11.75) in Transmission Number One, from 3:30 to 5:30 a. m. GSF broadcasts simultaneously with GSB (9.51) on this schedule.

Our guess for the points of origination for the British Empire broadcast of Christmas Day will include VWY, Kirkee, India (17.54), ZSS, Cape Town, South Africa (18.89), and VLK, Sydney, Australia (10.52). Short-wave DXers may want to try for these points while the program is in progress. We will appreciate any reports.

For the most complete schedule of short wave programs ever printed, including a list of special Christmas broadcasts, and a Short-wave Timetable of principal stations throughout the world, see Page 28 of this issue.
