SHORT WAVE NOTES

EDITOR-IN-CHIEF--CHARLES A. MORRISON

ASSOCIATE EDITORS: J. Wilson, August Balbi, Grady Ferguson, R. Juett,
W.W. Lyster, Chas. Lebouef, Thomas Jones.

PRESS DEADLINES FOR FEBRUARY GLOBE CIRCLER: Jan. 11. The FEBRUARY GLOBE CIRCLER will be mailed on, or about February 2.

SHORTWAVE NOTES FOR THE GLOBE CIRCLER

For the duration shortwave information is vitally important. We need plenty of notes. Please submit items as follows: Use one side page only...Double space all lines...Group items by continents...Be sure to state time used. We are most interested in times pertaining to: NEW stations; changes in freq. or schedule; times for news in English, or other languages; times of peak reception for the weaker stations or those of timely war interest; detailed authentic information concerning station schedules, addresses, power etc. It is imperative that any important items reach me by fastest mail.

Four star (****) items denote exceptional merit...Each Five star (*****) item pays its contributor \$2.00 in war stamps...In crediting items the general geographical location of that member - if in North America - is shown as: E-Eastern; C-Central; W-Western. If foreign, the country, or an abbreviation of that country is given.

GOVERNMENT AND INTERNATIONAL BROADCASTERS, IN U.S., UNITE FOR DURATION

On Nov. 1, with little publicity, the war-time union of U.S. international broadcasters with government agencies, the OWI (Office of War Information), and COIAA (Coordinator of Latin American Affairs), was formally effected.

Under the new set-up all transmitting facilities of our short-wave stations have been leased by the government for the emergency period (not to exceed five years). Programming will be done entirely by OWI, NBC & CBS, and programs will originate from studios at NBC, CBS, KGEI, KWID or OWI. The new network, known as the Bronze Network is managed by F.P. Nelson, with John R. Sheehan, formerly of WGEA-WFEO, as assistant manager. Headquarters of the unified organization is in the OWI building at 224 West 57th St., New York City. The best programs of NBC & CBS are being retained, and to them are being added many new programs to fulfill the wartime need. Additional transmitting facilities will be added to the Bronze Network as fast as they can be built. The one object of the unified voice known as "The Voice of America," will be to tell the truth to the peoples of the world about what is happening from day to day; about America's part in the war effort.

SHORTWAVE NOTES FOR THE GLOBE CIRCLER

Shortwave information is now vitally important. We need plenty of notes. Please submit items as follows: Use one side page only...Double space lines...Group items by continents...Be sure to state time used. We are most interested in items pertaining to: NEW stations; changes in freq. or schedule; times for news in English, or other languages; times of peak reception for the weaker stations or those of timely war interest; detailed authentic information concerning station schedules, addresses, power etc. It is imperative that any important items reach me by fastest mail.

Four star (****) items denote exceptional merit...Each Five star (*****) item pays its contributor \$2.00 in war stamps...In crediting items the general geographical location of that member- if in North America- is shown as: E-Eastern; C-Central; W-Western. If foreign, the country, or an abbreviation of that country is given.

IMPORTANT ANNOUNCEMENT

With this the 113th consecutive issue of the GLOBE CIRCLER (started on Jan 1.1933), I regretfully announce the suspension of publication - as an economy measure- until after the war- at which time I hope- with your cooperation to put out an enlarged and improved magazine.

The International Dx'ers Alliance is not being dissolved and I hope to keep in touch with you from time to time if at all possible. The matter of discontinuance of publication for the present has been brought about- not by lack of interest or cooperation but by lack of sufficient revenue to continue. With overseas enrollments out of the question --- a vast number of our members in the armed forces, and many others doing full time work which leaves no leisure for dx'ing revenue understandably has been on the decline. This is not your fault nor is it mine. I have carried on as long as possible meeting any deficits out of my own pocket. I am no longer able to do this.

A careful record is being kept of all unexpired subscriptions and when publication is resumed each member will receive all issues remaining to his or her credit.

The Monitoring Network will continue to function and other IDA organizational activities will continue wherever and whenever possible.

With grateful thanks to all who have given untiringly and unselfishly in the interests of the IDA.

Charles A. Morrison
